PLOT TO SEIZE GOVERNMENT FRUSTRATED BY 600 ARRESTS

Judge Orders Mine Strike Ended

UNIONS ARE SCORED IN FEDERAL COURT

Restraining Order Is Made Temporary Injunction Against Officials

ARGUMENT CUT SHORT, DECISION ANNOUNCED

"I Consider This Rebellion," Jurist Declared, and Will Follow Law

INDIANAPOLIS, Nov. 8.—Officials of the United Mine Workers of America today were ordered by Federal Judge Anderson to withdraw their order calling 400,000 members on strike. The judge also made the restraining order preventing them from furthering the strike a temporary injunction.

The judge interrupted arguments of attorneys for the miners to state that his mind was made up on the questions involved.

"I think this is the most lawless thing I ever saw in my life," he said. "I consider this rebellion. That is what it is."

"The government is supreme even to labor unions."

The judge declared the strike would result in "irreparable injury."

"The government alone stands to lose millions of dollars through lack of coal supply," he said.

"The judge said that he did not think the question of when the war ends a just issue in the case."

"It is a political question," he said, "and the court must follow the statutes."

"The Lever act applies to the very thing these defendants have done. It is in force until the war is legally ended. The war has not been officially ended."

The judge would not permit attorneys for the miners to present their arguments. When he said his mind was made up that the act was in force, Attorney Warrum for the miners said:

"I am through," and sat down.

William Rooker took up the miners' arguments, but Judge Anderson said his statements were useless.

Pretty California Child Kissed by Belgian Queen

Daughter of Congressman Nolan, Attracts Attention of Royal Guest

WASHINGTON, Nov. 8.—Pretty little Corliss Theresa Nolan, only child of Congressman and Mrs. John I. Nolan, of San Francisco, will have something to tell her friends when she grows up. She was kissed by a queen and told that she brought sunshine into a California home.

The pretty scene occurred in the house when the king and queen of Belgium were received. Little Corliss was on the floor with her father and waved a merry greeting to the queen, who was in the gallery.

The queen was at once impressed by the beautiful child's smile, and asked to meet her. When little Corliss was presented the queen kissed her on the cheek and they had a little chat, greatly to the delight of everybody within sight and hearing.

Corliss, who is a beautiful child, is a favorite among the congressmen, whom she has met with her father, who is her best "pal."

LAST U. S. MEN SHOULD RETURN BY CHRISTMAS

PARIS, Nov. 8.—The last American doughboys in France will be home for Christmas, General Connor announced today. He said all activities of the American army in France will cease December 1. The American base at Brest will be continued until December 15, when the last American soldier is scheduled to be homeward bound.

\$10,000 FOR GLANDS OF MURDERER OFFERED

Many Seek Renewed Youth at San Quentin But It Is Not For Sale

SAN QUENTIN, Nov. 8.—Resident physicians at San Quentin prison today received an offer of \$10,000 from a prominent business man if they would transfer to him the interstitial glands of Antonio Lapara, who is to be hanged, December 19.

But the glands are not for sale. A prominent physician of the San Francisco bay district also has asked that the operation be performed on him, but even professional courtesy cannot break down the prison rules.

Vigor that money cannot buy will be transferred by the doctors to the poorest specimen of manhood they can find in the prison—a man without money and without friends, who has been rejected by society.

Hundreds of letters have been received by the doctors from men who want the glands. These letters come from all parts of the United States. In each case the doctors reply that the operation at present can be performed only upon inmates of the prison.

Answers Many Letters One prisoner, the doctor's stenographer, who formerly was a California banker, is kept busy every day replying to letters from men along in years or prematurely old who want interstitial glands.

If a man were to commit a crime, such as forging a check, he might gain admission to the prison, but even then he might not get the glands, as there is a long waiting list of old men who want them.

"J," the old man who got the first pair of glands, reported to Dr. L. L. Stanley and Dr. G. David Kelker, his assistant, today that he felt remarkably well and vigorous as a result of the operation which was performed recently on him. His face has filled out, and he has gained ten pounds. The wound has completely healed. "J's" sentence expires in 1928.

Lapara was reported in perfect health. He has not indicated whether he has heard the news that his youth is to be transferred to some aged prisoner after his death. Lapara is described as a "good fellow" by the doctors, and they believe he would not object if he should hear of their plans.

BULLETINS

SACRAMENTO, Nov. 8.—Secretary of State Jordan brought forth a storm of protest from labor leaders today when he announced that he will leave next week on a tour of the Pacific coast states to sound out sentiment on a plan to import Chinese coolie labor to work on farms. Jordan's plan is to send the Chinese out of the country again when they are no longer needed. Labor leaders of Oregon, Washington and California immediately entered strong protests to the plan.

WASHINGTON, Nov. 8.—A reservation to the peace treaty which would permit the United States, at the discretion of congress, to withdraw from the league of nations was before the senate today for action.

Lady Nancy Peeved at Papers Shows Her Yankee Temper

PLYMOUTH, England, Nov. 8.—Lady Nancy Astor's American temper today threatened to involve her in a dispute with the press, her supporters feared.

Angered by the constant quips of newspapers, Lady Nancy in several of her recent speeches has attacked the press with customary vehemence and friends were afraid some of the newspapers might turn from their attitude of jest to serious criticism of the Viscountess' utterances.

So far the press has featured her campaign from every possible angle, with much good natured joking, but there has been little real newspaper opposition to Lady Nancy's ambition to be the first woman M. P.

ITALIAN QUAKES MAKE HUNDREDS HOMELESS

By CAMILLO CIANFARRA (United Press Staff Correspondent) ROME, Nov. 8.—Rome today anxiously awaited further reports from the upper valley of the Tiber river, rocked by severe earthquakes last night.

It was feared there might be heavy casualties. Hundreds of persons were homeless and communication with the stricken area was crippled.

Meager dispatches from Arezzo late last night said two distinct shocks were felt. The towns of San Sepolero and San Bartolomeo were reported badly damaged. More than one hundred houses collapsed, according to the dispatches. The frightened inhabitants were reported camping in the streets.

Last night's quake was the second to visit the district in less than a fortnight. Property was damaged severely by earth tremors late in October, but no loss of life was reported.

The dispatches did not mention the extent of property damage in Arezzo, an ancient city about 140 miles north of Rome and birthplace of the historian, Petrarck. The earthquakes apparently extended along the Apennines from Arezzo southeast into Apulia, more than 200 miles.

Arezzo, one of the chief cities of Tuscany, has a population of more than 48,000. San Sepolero (Borgo San Sepolero) is about 25 miles northeast of Arezzo.

PRISONERS NEGLECTED CHARGE BEING PROBED

SAN FRANCISCO, Nov. 8.—Colonel Guy Carleton, inspector general of the western department, is today investigating charges of neglect of prisoners and defiance of war department regulations by officers at the Presidio.

The charges were made by Lieut. Benj. J. Smith, and caused a prompt investigation to be ordered by Lieut. Gen. Liggett.

Smith was formerly assistant prison officer at the Presidio. His statements implicate a number of his former superior officers at the camp.

WET AND DRY VOTE IN OHIO NOW VERY CLOSE

COLUMBUS, O., Nov. 8.—Figures indicated today the vote had only a majority of one vote out of nearly 1,000,000 cast on Ohio's ratification of the national prohibition amendment, with practically complete, though unofficial returns for the entire state.

The figures, compiled in the office of the secretary of state, follow: For the measure, 492,925; against it, 492,926.

RAIDS ON RADICALS IN SCORE OF CITIES HALT DEMONSTRATION TODAY

Union of Russian Workers Directly In Charge of the Revolutionary Movement, Is Worse Than Bolsheviki, Says Federal Officials; Has 7000 Members In America; Arms and Press For Printing Money Are Seized.

A nationwide revolutionary plot in the United States, alleged to have been fostered in Russia, has been frustrated by federal agents, it was announced in Washington today.

The uprising, which is said to have been planned to start with general demonstrations today, apparently was averted through a series of raids by department of justice operatives in nearly a score of cities last night and early today, in which more than 600 men and women were arrested.

The revolutionary movement, according to government officials, was directly in charge of the Union of Russian workers, declared to be "more radical than the bolsheviki." Organized in Petrograd, it was said to have 7,000 members in this country who were ready to establish their own form of government as soon as the United States government had been destroyed.

According to government officials, quantities of arms, gathered in preparation for the revolution, were seized in the raids. It was regarded as significant that most of the prisoners were Russians.

Great Move to Suppress Union of Russian Workers

By RALPH R. COUCH (United Press Staff Correspondent)

WASHINGTON, Nov. 8.—Raids upon radicals which began last night constitute the beginning of a nationwide campaign by the government to suppress the Union of Russian workers, which advocates in its constitution overthrow of the United States government, Assistant Attorney General Garvan announced today.

"Many more arrests will be made today," said Garvan. Garvan has a copy of the society's constitution, which, he said, pledges thousands of members to bring about a revolution by force and the socialization of industry.

"The society has branches in almost every part of the United States," Garvan declared. "It has been in operation more than ten years."

Garvan early today began tabulating reports of arrests from more than a score of cities. Reports were being received hourly.

The union of Russian workers, organized by William Szatow, now chief of police of Petrograd, was for the revolution which was to overthrow the American government, it was stated at the department of justice today. Arms had been accumulated and were seized in last night's raids. The 7,000 members of the organization were prepared to begin operating their own government as soon as the United States government had been destroyed, it was learned.

Plant Ready To Make Bolshevik Money. At Newark, N. J., the federal raiders captured a complete counterfeiting plant where the conspirators, it is charged, planned to make money for their bolshevik regime. Bundles of bank notes were all ready to be put in circulation.

The organization "is more radical than the bolsheviki," said the department of justice. It was organized in New York in 1907 by a group of eleven men led by Szatow.

"The purpose of the society was to amalgamate all the Russian groups in the United States into one organization."

"Last night's raids included leaders of the organizations in Buffalo, Akron, Youngstown, New York, Chicago, Pittsburgh, Philadelphia, Cleveland, Detroit, Baltimore, Newark, N. J., and Elizabeth, N. J.; Hartford, Waterbury, Ansonia, Bridgeport, New Haven and Seymour, Conn."

Romen Mosichok, alleged organizer of the union of Trenton, N. J., was one arrested. In his room at 109 Pemberton street were found gunpowder, copper and brass wire, electrical batteries and wax paper, it was charged.

"The union held a convention in Detroit in 1914 attended by delegates from all principal cities in the United States and Canada," the statement said. "The delegates adopted resolutions which later became a part of the constitution and which have not been substantially changed since."

NEW YORK, Nov. 8.—Forty-eight men and two women were under arrest here today as part of a nationwide roundup of alien radicals, starting last night. They were charged in warrants issued by Immigration Commissioner Caminetti with being "alien criminal anarchists."

The raids were said to have been aimed at averting a possible "red" revolt, which was to have started with a great demonstration today—the second anniversary of establishment of the Russian soviet republic.

Department of justice agents were reported to have acted simultaneously

\$200,000 HOUSE U. S. REVOLUTION COX SELLS RANCH HALTED BY 600 ARRESTS AT OLIVE FOR \$55,000 CASH

(Continued from Page One)

Articles of incorporation of the Orange Industrial Corporation, organized for the purpose, principally, of building and selling houses at Orange and vicinity in connection with the alleviation of the present housing situation, will be filed within a few days, it was today announced by Attorney F. C. Drumm, at Orange. The concern will have a capital stock of \$200,000, divided into an equal number of shares of a par value of \$1.00 each. The names of the directors are being withheld for the present.

Many Alleged Anarchists Seized Throughout Country

BALTIMORE, Md., Nov. 8.—Six radicals were arrested here today by department of justice agents. This makes a total of eight arrests since late last night.

SAN FRANCISCO, Nov. 8.—In a raid on L. W. W. headquarters here last night, federal agents arrested two men, William Burns and Jack Koval. The rooms were full of men shortly before the officers arrived, but these two men were found there. They are charged with vagrancy.

BRIDGEPORT, Conn., Nov. 8.—Two Russians were arrested here last night. They were locked up at headquarters after a grilling by detectives and held without bail.

HARTFORD, Conn., Nov. 8.—Forty-one alleged "reds" were arrested in this state in a general raid last night. Quantities of alleged radical literature were seized.

DETROIT, Mich., Nov. 8.—Federal officials here today were reticent regarding raids in the state last night on Russian colonies. It was said search was made for "reds" who have been brewing trouble.

Later reports showed nearly 100 state arrests. Detroit had more than half that figure.

CHICAGO, Nov. 8.—Raids in which 200 alleged radicals were rounded up were conducted last night and early today in the Chicago district under the leadership of Edward J. Brennan, head of the department of investigation of the department of justice here. Brennan refused to give details of the roundup. Twenty in Chicago proper were arrested.

WEINSTOCK DEMANDS APOLOGY BY SNYDER

LOS ANGELES, Nov. 8.—State Market Director Harris Weinstock in a letter received here today demanded a public apology from Mayor Snyder of Los Angeles as a result of Snyder's criticism of the recent Sacramento conference of mayors on the high cost of living. Snyder in an interview was quoted with having charged that Weinstock prevailed on Mayor Brown of Sacramento to admit farmers and egg producers to the meeting, and that it was the presence of these men which made the conference a failure.

"I am writing to ascertain if you were correctly quoted," Weinstock's letter said, "for if so you owe me a public apology, as there is not one iota of truth in the statements alleged to have been made by you." Mayor Snyder has not yet replied to the letter.

WOODMEN EXPECTING SUPREME ORGANIZER

The Modern Woodmen of America of Orange county are looking forward with much interest to their meeting in Santa Ana next Tuesday evening, when Supreme Organizer Ralph E. Johnson of Lincoln, Neb., will be present and address them. There will be degree work by a selected corps of officers.

BOLSA NEWS

BOLSA, Nov. 8.—Mr. Beatty left for Los Angeles Monday evening. He will return this evening.

Mr. and Mrs. Rasmussen, from Clay county, Kansas, friends of Mr. and Mrs. D. M. Forney, who spent the winter here last year, have returned to California to locate.

The teachers of the Bolsa school gave a Halloween party at the school house Friday evening, last week, which was enjoyed by an unusually large crowd. The entertainment for the evening was made up of a delightful program followed by fortune telling and different games.

Mr. Robins from Henet, was visiting old friends in Bolsa this week.

Thomas Warner is visiting his parents, Mr. and Mrs. C. H. Warner, of Bolsa.

Gus Ward and the Justice boys for the past few days have been gathering rounds for the Universal Motion Picture Company of Los Angeles.

Mr. and Mrs. Gardner and family of Bolsa visited friends in Ontario for the week-end.

Mr. and Mrs. Steffy, from Tustin, have moved to Bolsa to make their home.

A number of men are busy cleaning the Bolsa drainage canal. They now have it completed to north of the school house.

Mrs. Patterson and Earl and Mr. and Mrs. Harry Harper and Mr. and Mrs. Comb spent Sunday evening at the J. C. Ross home.

AMUSEMENTS

"THE LIFE LINE"

One of the most interesting of the season's pictures at the Temple this winter was "The Life Line," which opened last night with a good audience for a three days' run. Local interest was given the play by the appearance of J. A. Turner's beautiful dogs which took a leading part in an exciting hunt through the Beverly hills.

TO WALNUT GROWERS

To Walnut Growers: On account of the great demand for Diamond Brand Buds for the holiday trade and a light demand after the holidays, it will be necessary to have all budded nuts that are dry delivered at the packing house on Tuesday, Nov. 11. To make room for the buds, the doors will be closed all day Monday and nothing but buds will be received on Tuesday.

ALL BAY STATE CARS MUST HAVE MIRRORS

The new law requiring all taxicabs, trucks and other commercial vehicles to carry mirrors has gone into effect in Massachusetts. It does not apply to cars, but there has been a lot of confusion because many motorists did not know the law and they rushed to accessory stores and got mirrors to be on the safe side. In another year mirrors will be required on all vehicles. This year they were not urged for cars because it was felt with New York passing the same law it would not be possible for Bay State motorists to get enough to comply with the requirement. Many motorists have

used mirrors for years for their own safety.

CHICAGO CLASH AROUSSES MUCH INTEREST

Revival of Ancient Rivalry
With Michigan to Take
Place Today

CHICAGO, Nov. 8.—Chief interest in western football today was in the Chicago-Michigan game here. It was a revival of an ancient rivalry and the first meeting of teams really representative of the institutions since the memorable 2 to 0 victory of Chicago in 1905.

There was little chance for comparison of the two teams. Both teams have played Northwestern, Chicago winning by a big score, Michigan barely winning.

Other games today included: Baylor vs. Texas at Waco, Detroit vs. Tufts at Detroit, Kansas vs. Oklahoma at Lawrence, South Dakota vs. Michigan Aggies at Lansing, Minnesota vs. Illinois at Minneapolis, Missouri vs. Nebraska at Columbia, Northwestern vs. Iowa at Evanston, Ohio State vs. Purdue at Columbus, St. Louis vs. Marquette at St. Louis, Drake vs. Washington at Des Moines.

WASHINGTON COLLEGE WILL TACKLE OREGON

PORTLAND, Ore., Nov. 8.—When Referee George Varnell blows his whistle here at 2:30 o'clock this afternoon the mighty eleven of Washington State College and the University of Oregon will charge into what is generally considered the football classic of the 1919 Pacific Coast collegiate conference.

The winner of today's battle is expected to be later declared the coast champion and given the honor of meeting the eastern collegiate champion at Pasadena New Year's day. Neither Gus Welch, Washington State coach, nor "Shy" Huntington, Oregon mentor, claims his team will win. Each has a star player out of the game. Captain Dick Hanley of the Pullmanites was left at home in the hospital. Spike Leslie, Oregon's star tackle, is in little better shape. He was able to make the trip to Portland—with the aid of crutches.

STANFORD WILL PLAY SANTA CLARA TODAY

STANFORD UNIVERSITY, Cal., Nov. 8.—Handicapped by the loss of star players through injuries, Stanford and Santa Clara football eleven will take the field here this afternoon in the annual American football battle between the two schools.

Today's fracas is the "big game" of the year for the Catholic institution. It will be Stanford's last appearance before the Cardinal tackles California on November 22.

MOTORCYCLE RUN TO MT. WILSON TOMORROW

Twenty or more motorcyclists will engage in a run to Mt. Wilson tomorrow, the party being organized by Carriker & Cowl. The start will be made from the firm's shop in Orange at 9 a. m. and all motorists are invited to join the party. It is expected that one of the new Scout models of Indian manufacture will be on the run.

MAHONEY WHIPS KETCHELL
LOS ANGELES, Nov. 8.—Eddie Mahoney of San Francisco rained singing blows on Young Ketchell in the main event at last night's Vernon four-round boxing show, and won a decision about which there was no doubt.

Home-made Candies at home-made prices. Nougats, fudges, creams, brittles. Lion Kandy Kitchen, 211 West Fourth St.

NEW TREATMENT THAT KNOCKS RHEUMATISM

75c BOX FREE TO ANY SUFFERER
Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally."

F. H. Delano, 1431 B Griffin Square Bldg., Syracuse, N. Y. I can send you one Free Package to an address.

Northern College Will Clash Today with U.S.C. Squad

LOS ANGELES, Nov. 8.—The big game of the football season between north and south will be played today. The University of California team, representing the North, was up early today, expecting a victory, but not without a fight.

The U. S. C. squad was also up early, realizing it must get up early if it is to win. U. S. C., according to Coach Elmer Henderson, expects to be beaten, maybe, and proposes to fight every inch of the way. Fighting spirit, according to the U. S. C. supporters, will be the chief reliance of the Trojans.

Dopesters say the Bears should win by five touchdowns.

Other collegiate games today are Occidental vs. Throop at Patterson Field and Whittier vs. Redlands at Redlands.

ORANGE SERVICE MEN JOIN WITH LEGION

The Orange chapter of the Service Men's Association has voted to affiliate with the American Legion and made application for a charter from the state organization.

This action was taken following an address by Major Frank C. Doherty of Los Angeles, representing the American Legion, who had been invited to talk to the Orange chapter. Major Doherty told what has been accomplished by the Legion in the way of national organization, and what its purposes are. He stated that it was non-political, non-sectarian, and devoted to the fostering of patriotism and Americanism. He declared that the nation had vital need of the support of such an organization.

Following the business meeting an excellent musical program, arranged by Jerry Lyons, was presented. This was followed by dancing.

The chapter was presented with two boxes of apples and a large number of gift envelopes containing cigarettes and chewing gum by the Red Cross. A resolution of appreciation of the Red Cross gift was adopted.

ANAHEIM BEATS SECS OF FULLERTON 37-12

Yesterday afternoon the Anaheim High football eleven walked away with a game with Fullerton second team on the Anaheim field. The score was 37 to 12. The Anaheim backfield, Claves, Cook, Elliott and Wilmsen, played a superb game, picking the holes made by the line in a remarkable fashion. Fullback Cook was handicapped by a rib which was recently broken and had scarcely mended. The Anaheim line-up was: Fitz, le; Hansliden, Hile, It; Lake, Betzold, lg; Steichen, c; Rogers, rg; Terry, rt; Shoobridge, re; Claves, q; Elliott, lb; Wilmsen, rh; Cook, fb. Touchdowns: Elliott, 2; Williamsen, 1; Claves, 2; Cook, 1. Kicked goal: Claves, 1. Anaheim's next and last league game will be played here, Friday.

COMISKEY WILL STICK WITH COLONEL RUPPER

CHICAGO, Nov. 8.—Charles A. Comiskey, president of the White Sox, knows nothing of the reported billion-dollar third league said to be under consideration by dissatisfied magnates of Ban Johnson's circuit. He said today he is "with Colonel Rupper to a finish in anything he starts," however.

Only a Cold
Are you ill? is often answered—"Oh! it's only a cold," as if a cold was a matter of little consequence, but people are beginning to learn that a common cold is a matter not to be trifled with, that some of the most serious diseases start with a cold. As soon as the first indication of a cold appears, take Chamberlain's Cough Remedy. Remember that the sooner you get rid of your cold the less the danger, and this remedy will help you to throw it off.—Adv.

ARMY VS. NOTRE DAME
WEST POINT, N. Y., Nov. 8.—The Army and Notre Dame meet here this afternoon in the season's big inter-sectional clash. The Catholics were heavy favorites.

WRESTLE TO DRAW
CHICAGO, Nov. 8.—Bill Demetral and Steve Savage wrestled until midnight without a fall here last night.

O'CONNELL BEATS DENNIS
DETROIT, Mich., Nov. 8.—Charlie O'Connell, Cleveland lightweight, walloped Young Dennis of Milwaukee in a thirteen-round mill here last night.

As a flight captain, Villa is a success.—Philadelphia Public Ledger.

I still have Casabas on hand; also ice, but wish to call attention to all varieties of wood for stove or fireplace. Coal may be prohibitive, put in wood and be comfortable.

FOR OUR SCHOOLS

Can there be any question as to what the citizens of Santa Ana ought to do in relation to the proposal for better facilities at Santa Ana High School?

It is the duty of the Board of Education to keep the public in touch with the needs of the schools. When the time comes when additional room and equipment are necessary, the school board should make that fact known to the people of the city clearly and concisely.

Yesterday at a gathering of City Trustees and directors of civic organizations, the needs of the high school were explained in a way that could leave no misunderstanding. The high school ought to have additional class rooms right now. In February a class of seventy will be received from Intermediate School. Santa Ana today has a greater population than it has ever had, and there is every reason to expect it to grow in population just as fast as its builders, all of whom are busy, can construct houses. In order to care for the students now there and for an increasing attendance in the way they ought to be cared for, certain things ought to be done at the high school plant immediately.

The state law requires physical training for all students. The law is mandatory. The school authorities have no choice in the matter, even if they were disposed to quarrel with the law, which they are not disposed to do. Therefore, there must be provided a place where adequate physical training can be given.

At present several rooms are used in giving physical training to the girls. The construction of a separate gymnasium building would release these rooms for classrooms. More pressing than that is the fact that there are insanitary conditions in relation to the crowded conditions of the girls' dressing rooms that cannot possibly be avoided while the attempt to carry out the directions of the state law is made under present arrangements, the best possible with its present facilities.

The trend of education toward giving students practical instruction has had its answer at Santa Ana High School this year in a very large enrollment in some of the mechanical courses, particularly mechanical drawing, that has resulted in crowding classes into ill-lighted rooms, never designed for classroom purposes.

The coming of more pupils next spring and the following fall make it imperative that additional classrooms be provided.

An assembly hall at the high school is needed. That question was decided favorably by the voters of the city two months ago, but the rejection of the bonds on a legal technicality makes it necessary for the matter to be again submitted to the voters. While that matter is up for consideration, the voters are to be asked to consider the other needs of the high school, too. These other needs are needs that have become pressing since the opening of school in September. The enrollment of freshmen this year will total fully 100 more than last year. Other conditions have arisen that bring the situation to a point where immediate action is imperative.

Yesterday the City Trustees, the directors of the Merchants' and Manufacturers' Association and the directors of the Chamber of Commerce had the situation presented to them, and, understanding it thoroughly, they voted unanimously in favor of asking the Board of Education to proceed with calling an election for \$110,000 bonds.

When the question is voted upon by the people of Santa Ana, the answer should be in the affirmative and just as clear-cut and forceful as was the answer of the trustees and directors who considered the matter in detail yesterday.

"CLASSES"

There is altogether too much talk about "classes" in this country. The result is to create a mischievous belief in a condition that does not exist.

The idea of distinct social and economic classes is borrowed from Europe, where such distinctions answer more nearly to actual facts. It is promoted by economic writers who assume the existence of clean-cut groups in order to discuss principles more clearly, but who would admit, if they ever stopped their theorizing

and hair-splitting, that such terms as "capitalist class," "laboring class," "middle class," etc., do not describe definite segments of society, but only to serve to emphasize tendencies.

The edges of our so-called classes are vague and confused, overlapping and merging so that half the time nobody can tell where one begins and the other ends. The "workman" of today, saving his money and using his brains, becomes the "capitalist" of tomorrow. The employee develops into the employer. The "proletarian" or unskilled laborer who is theoretically an industrial slave, always on the edge of want, becomes the prosperous skilled laborer. The skilled laborer becomes a foreman. The foreman becomes a superintendent. The shop man grows into an office man. Manual workers or their children drift into "professions." Professional people go into commerce, and vice versa. There are employers who work alongside of their employees, and there are countless capitalists who manage their own business, and thus earn "wages of superintendence" along with their dividends or interest.

There is less industrial freedom, no doubt, than there used to be. Still there is an amazing amount of freedom, flexibility, elasticity in this American industrial life—and, along with it, in the American social life. Any man with the necessary energy, brains and character can change his industrial status and environment practically without limit. Our business life is full of instances in point. And the process is going on right now, in every industry in America. The trouble is that radical labor agitators and capitalistic Bourbons alike are obsessed by delusive theories and refuse to see facts. Class talk fosters a class spirit when there is no sound reason for it.

Cheerfulness

Collier's Weekly

There is one form of currency that has not been inflated by the war, and that is more valuable than ever. It is the currency of cheerfulness. In strenuous and anxious times our spirits must be kept up as well as our finances. Smiles, encouraging words, the friendly hand in the hour of hesitation—all of these are more valuable than ever. They are too little in circulation. R. L. Stevenson records the fact that an old gentleman once paid a newsboy a dime for looking cheerful. Today he would probably be moved to pay a dollar. Jokes and laughter in the trenches helped to decide the war as truly as did liberty bonds, and they increase the joy of living without raising the cost of it. To be sure, this courage, like any other, may become game for the counterfeiter. We are none of us grateful to the employer who substitutes extra "smileage" for extra pay. But the genuine article is inestimably precious. We need a new issue of it.

Thanksgiving

Long Beach Press

A deep note of patriotic fervor, optimism and thankfulness pervades the Thanksgiving proclamation of President Wilson. Reviewing the culmination of the great war in victory for freedom and justice and welcoming "the dawn of an era where the sacrifices of the nations will find recompense in a world at peace," the proclamation bears this injunction to the people to uphold standards of loyalty and patriotism:

"But to attain the consummation of the great work to which the American people devoted their manhood and the vast resources of their country, they should, as they give thanks to God, reconsecrate themselves to those principles of right which triumphed through His merciful goodness. Our gratitude can find no more perfect expression than to bulwark with loyalty and patriotism those principles for which the free peoples of the earth fought and died."

The president directs attention to the year's prosperity, despite confusion in the nation's economic life. And as cause for special gratitude to the Almighty, the president cites the fact that "our democracy remains unshaken in a world torn with political and social unrest. Our traditional ideals are still our guides in the path of progress and civilization."

Great blessings are these. President Wilson is very right in calling upon the people to show thankfulness, to take courage and to strive for betterment in national life.

The Sycamore Rebekahs will give a dance in the I. O. O. F. hall Nov. 11. Everybody welcome. Admittance 25c.

The Wreck Wagon

OVER 2,000 ARE SUICIDE'S BODY ENROLLED IN SANTA ANA TO BE SHIPPED TO OHIO

With a total enrollment of 2,017 reported up to this morning, Santa Ana chapter has started upon its third group of memberships of 1,000 each, and there is every reason to believe that before next Tuesday night the 3,000 mark will be reached and passed by several hundred.

Since yesterday morning, the southwest section, in which Miss Minter and Mrs. Hatzfeld are captains, has turned in enough new members to bring its total up to 503, just equalling the total of the business district, in which Attorney C. D. Swanner is captain.

The biggest enrollment yesterday was from the northwest section. Mrs. W. B. Tedford and Mrs. Lea Warren, captains in that district, reported 199 memberships to headquarters, giving the district a total of 353.

The two booths established on Fourth street have been receiving many memberships. Yesterday a young ex-service man stepped up to one of the booths, and asked for a Red Cross button. He opened his check book.

"The membership is one dollar," "Not for me," he replied. "When I was in France, the Red Cross performed some services for me that I am not going to forget. It gave me some things that I very much appreciated. So I am going to pay more than a dollar for a membership."

And he did. The check was for \$2.50 and it was from H. J. Winegar.

Today a poster showing 100 per cent enrollment was sent to the Santa Ana Hospital. That poster means a good deal, for that 100 per cent includes not only all of the nurses and others connected with the hospital, but it includes every patient now in the hospital.

In the business district 100 per cent posters were awarded yesterday to the California National Bank, the Palace Restaurant, Frank's Employment Bureau, Dickey & Baggeley and the Public Library.

The membership drive is to continue until Tuesday evening.

W. W. Wasser, secretary of the local lodge of Elks, this noon received a telegram from the secretary of Alamosa Lodge, Colorado, directing that the body of Orla D. Sells, who committed suicide at Huntington Beach, be embalmed and shipped to Sells' sister, Mrs. Elsa Stansberg, Bethel, Ohio. Sells' belongings are to be shipped to his father, Frank M. Sells, at Center Colorado.

Meanwhile the body was being held at the C. H. Bundschuh undertaking parlor at Huntington Beach, where an inquest had been held.

Verdict of death caused by a bullet from a .32 calibre revolver, fired with suicidal intent, had been signed by Coroner Charles D. Brown. Those on the coroner's jury were W. D. Seely, R. E. Taylor, D. Sheehan, A. F. Lindner, R. L. Obarr and James J. Conrad.

Caused by Jealousy
Jealousy lay behind the suicide of young Sells—jealousy, and a Hamlet-like melancholy that he could not dispel. That, briefly, sums up the causes that led to the tragedy, according to the young girl.

"He could not bear even to see other young men talking to me," she said. "He was insanely jealous."

"I told him that there was a chance for him," the girl continued, barely able to keep back her tears. "I told him, just before he left me, that I was too young to marry. I wanted him to wait until I was older and able to know my own mind better. I told him I did not love him, but that some day I might."

DIES OF HEART FAILURE

W. L. Finney, for fifteen years a resident of Anaheim, is dead from heart failure today at Long Beach. Finney was at the wheel of an automobile when death came. The machine crashed against his residence.

Mrs. Alba J. Padgham will resume her class in piano instruction, 208 East Ninth street. Tel. 487-W.

Social Events

Music Section to meet.

The music section of the Ebell will meet on Monday afternoon, at two-thirty o'clock, with Mrs. John Wehrly, 819 Spurgeon street.

Evening Program Planned.

The City Federation of Parent-Teachers' associations has planned to hold its next meeting on Wednesday, Nov. 12, in the auditorium of the intermediate school at eight o'clock in the evening.

An especially good program has been prepared and all the people in town who are interested in the work of the P. T. A. are extended an invitation.

Armistice Day Program Planned.

Practically everyone is making their plans for the celebration of Armistice Day, next Tuesday, and figuring largely among them is the program to be given by the Santa Ana chapter of the American Legion. Through the courtesy of L. A. Schlesinger, the Temple Theatre has been secured for the purpose.

Those who wish to get an "inkling" of what they will see at the entertainment, should be at the county jail, Monday morning at ten o'clock, for at that time E. J. Humphrey, formerly of the Orpheum circuit, and who is an artist in doing such things as breaking out of a sack bound with a hundred feet of rope, is to break out of the county jail. Tuesday evening he will present more of his seemingly impossible tricks.

Captain Holderman is also to hold an important part on the program, for he will relate his experiences with the Lost Battalion. Captain Holderman himself is a drawing card and needs no introduction.

Exceptionally fine musical numbers are assured for such artists as Ollie Mae Enlow Matthews, violinist, who, though but a short time in Santa Ana, has already formed a large circle of admirers, and Mrs. Russell Coleman, whose vocal talents are more widely known, have been secured.

A large patriotic moving picture production entitled, "Lafayette, We Come," will be the closing feature of the entertainment.

Former Residents Honored.

Members of the Pro Bono class of the United Presbyterian Sunday school motored, last evening, to Long Beach, where under the capable management of Mr. and Mrs. C. F. Miller and Mr. and Mrs. E. T. Elsie, a dinner was served in the dining room of the auditorium in honor of Mr. and Mrs. Jerry Burdick, who a short time ago moved from Santa Ana to Long Beach.

Earl Burdick and the choir of his church were also guests of the class.

After dinner speeches were made by A. H. Morrow, teacher of the Pro Bono class, Mr. Burdick, L. A. Gallows and others. After singing "For Whom I Have Believed," etc., the party separated. Dr. and Mrs. J. I. Kennedy, Mr. and Mrs. J. T. Raitt and Mrs. Bell Marshall accompanied the Burdicks to their pleasant home, 824 Line street, while the others enjoyed a fine display of fireworks and other amusements on the beach.

Home From Siberia

After thirteen months' service in Siberia, Arthur Anderson arrived yesterday, at the home of his mother, Mrs. Della Anderson, near Garden Grove. He made the trip home on the Great Northern.

Two Orange county boys whom he met in Siberia, Theodore Zimmerman and Clarence Mills, were expecting to leave on the next ship. Several transports closely followed the Great Northern.

Dinner for Friends

Mrs. E. D. White was hostess at a luncheon in James' gray room yesterday for Mrs. Walter McIntosh and Misses Margaret and Carolyn White of Montana, who drove down from Redlands, where they have been visiting, to spend the day with her.

Other places were marked at the table for Mrs. Arthur Lutz and Mrs. A. P. Nelson of Santa Ana.

LYDIA MORCH MANTEY

Observe Holiday

On account of next Tuesday being Armistice Day and a legal holiday, the Santa Ana W. C. T. U. will not meet until Tuesday, November 18, when they will meet with Mrs. W. E. Ward, 424 West Second street.

Sedgwick Club Plans Bazaar

The regular meeting of the Woman's Relief Corps was held in G. A. R. hall Thursday afternoon with a large attendance of members and several visitors, Mrs. Harriet Coulter, president, presiding.

Mrs. Scott of Guthrie, Oklahoma, a visitor, made an interesting talk on the work of the Relief Corps in her state. Mrs. Scott was a charter member of a department corps and has been an active member thirty-one years, and is now a member by transfer to Sedgwick Corps.

Mrs. Smith of Tustin, another visitor, expressed her pleasure at meeting so many friends and participating in the services of the Corps.

Next Friday, November 14, the date for the regular monthly tea, will be devoted to a bazaar, during which time meals will be served, and a food sale of choice home-cooked products will be an important feature. All members of the Corps are urged to contribute generously to this sale of their best-baked dishes, whether they excel as bakers of cake or pie, or the more staple things—meats, vegetables, salads,—whatever they prefer. The Corps membership is now near 300 and if each member donates one dish, a splendid dinner and sale will be the result.

The chaplain, Mrs. Nora Bruns, gave an excellent report of the excursion to Columbus, Ohio, and the G. A. R. National Convention, which was greatly appreciated and a vote of thanks tendered Mrs. Bruns.

Family Reunion at Glendale

Mr. and Mrs. George Rolfe of Garden Grove and Mrs. Julia A. Garrison of Santa Ana have returned from a visit to Glendale, where they went to attend a birthday party at the home of Mrs. Fred Sinclair, given in honor of her mother, Mrs. Affa Wickard, of Murietta. The brothers and sisters of Mrs. Wickard, Messrs. Anson Stevens of Pasadena, Mrs. Amy Rolfe and Mrs. Julia A. Garrison of Santa Ana, were all present with members of their respective families, making a long-to-be-remembered family reunion.

Anxious to Get to California

Mr. and Mrs. W. C. Blew have returned from a visit of several months to various points in Illinois and Iowa.

Going by the way of Deer Lodge, Montana, they spent two weeks with their daughter, Mrs. M. R. Moody. One week they were in Chicago and while there visited Mrs. James Harrison and her daughter, Mrs. Elsie Deese, at their beautiful home in Evanston.

At every place they met people who are anxious to come to California to locate.

In Iowa they encountered a small blizzard and are more than glad to get back to this land of sunshine.

Work for Good Cause

The members of the Sunshine Society met yesterday afternoon with Mrs. Alice Patton.

Plans for the year were discussed and work commenced for the Blind Babies' Home. This home is located in New York city and is the only one in the United States.

Mrs. Patton had arranged large bowls of yellow and white chrysanthemums in the rooms and had prepared light refreshments for the enjoyment of the ladies.

The next meeting is to be held at the home of Mrs. Mary Emerson.

Present were Mesdames May Thompson, Fred Robinson, Margaret Eaton, Bee Hessler, Mary Emerson and Alice Patton.

Flags Presented to Schools.

The Daughters of the American Revolution presented flags to the two new Mexican schools on Friday afternoon, accompanying the presentation with an interesting program.

The regent, Mrs. William Otis, delivered an appealing address, which was responded to by Mrs. Willis Perkins, of the Santa Fe school, and Mrs. Edith Bohannon of the Logan school. At the close of the services, ice-cream cones were enjoyed by the children, these also given by the D. A. R. of Santa Ana.

Mrs. Otis said in her address: Dear Teachers and Friends:—The Daughters of the American Revolution in presenting these flags to the new Mexican schools wish the banners to be their special gift to the children, that they may learn to appreciate the flag of the United States and what its glorious Stars and Stripes mean to them and to learn from its history the benefits of good citizenship.

My dear children, I am very much pleased this afternoon to see the new Mexican school, and also that so many of you can enter it. With these good

teachers to teach you the English language, and all of the other things which are very necessary to make you good citizens of this glorious nation, the United States.

I hope, also, that you are going to be very good children, and take good care of your school, and that you will do nothing to destroy it, as it has cost a great deal of money.

We, who are called the Daughters of the American Revolution, whose fathers and grandfathers gave their lives in the war for independence in 1776, want to do something for you.

Many of you have had brothers or relatives in this last terrible world war, and you already know much about this flag of the United States and have great love for it. You who were born here are Americans and this is your country and your flag and the children who were born in Mexico love the United States and its flag, because it has been their protection, giving them a welcome in sad times, when they had to leave their country and their homes there.

This is the flag of the United States, the symbol of liberty, and to be patriotic we always place the flag on our school houses and other public buildings.

The first flag of this kind was made by a woman named Betsy Ross in the days of the revolution, at the request of the father of our country, George Washington. There is a law of our country which says that we must always respect the flag and love its Stars and its Stripes.

The colors, red, white and blue, are the colors of our country and they mean: red for courage, white for purity and blue for truth.

Now, we take great pleasure in presenting it to you for your own school, and we are going to return from time to time to visit you, and to see how well you learn and to hear the songs about the flag, which very soon will float in the breezes over this school. I am going to read for you this pretty poem about the flag.

The red of the stripes is an emblem of war,

Defiance it speaks to our foes; It tells of our courage, valor and truth. Wherever this free flag goes,

The spotless white of the beautiful stars

Means purity, innocence, peace. May these bind the group like a golden cord Till time with its troubles shall cease.

An emblem of faith is the azure field. Like the beautiful sky above; It whispers "God's promises ever are sure." And tells of His boundless love.

And now to the breezes our beautiful flag,

Unfurl, for the nations to view; Let tyranny tremble and wrong hide away. At the sight of its red, white and blue.

Red, white and blue, and the light of stars,

Through our holy colors shine; Love, truth and justice, virtues three, That shall bloom in the land of liberty, in the homes of American men.

Remember—

Red says, "Be brave." White says, "Be pure." Blue says, "Be true."

In the evening an entertainment was given at Logan school for the parents, when enlightening talks were given explaining the work of the D. A. R. and why they are doing it.

Supt. J. A. Cranston spoke upon Americanization lines and Senator Tier, a missionary among the sugar factory workers at Huntington Beach, gave a most interesting and patriotic address, evoking so much enthusiasm among his audience that one of the parents was moved to express his appreciation. Mrs. Russell Coleman, accompanied by Miss Caroline Haughton, pleased the company with her singing. The evening's entertainment was closed with a flag drill and other exercises by the children, and the serving of light refreshments.

Interesting Speaker.

The Missionary Society of the First Presbyterian church will hold its annual thank offering service tomorrow morning at eleven o'clock.

Mrs. Adelaide I. Aldrich, one of the field secretaries of the Woman's Board of Home Missions, will give the address. Mrs. Aldrich's field extends over a large territory and her experiences are told in an entertaining manner. Her message will be full of interesting news.

Yes, we know you will sooner or later. Why not now? Call the Suit of you can enter it. With these good

PERSONALS

W. N. Sterling and wife of Kansas City, who have come to Santa Ana to make their home, are staying at the Meyer Apartment until they can find a place to locate.

Attorney S. M. Davis returned this morning from a trip to San Diego where he went on legal business. He says that real estate is moving as the title companies are busy. Congressman Kettner is home for a visit before the regular session of Congress opens.

A. J. Perkins made a trip to Los Angeles today.

Mrs. James Rice left today for the Long Beach sanitarium to spend a few weeks.

Mr. and Mrs. J. Howard Couze and daughter of Los Angeles are guests of Mr. and Mrs. F. P. Nickey. They are also calling on friends, as Mr. Couze and family were formerly of Santa Ana.

Mr. and Mrs. A. Waikinslaw, who have been visiting in the east for the past two months, returned home yesterday, accompanied by their niece, Mrs. Reta Jones, who will pass the winter here. They visited in their old home town, Superior, Neb., and in Iowa, Ohio and other states.

Mrs. L. J. Nelson has returned from a visit with her mother at Quinter, Kans. She had been absent a couple of months.

Mr. and Mrs. W. W. Anderson, who went east to the G. A. R. convention, have returned home, having made an extensive tour after leaving Columbus.

R. A. Gimmel, recently injured when he fell between two P. E. cars, is improving nicely at the local hospital.

Friends of Mrs. F. P. Hoffman, of McFadden street, will be glad to know she is continuously improving from her serious illness.

OBITUARY

Mrs. Elizabeth Morrison Clingan, wife of Robert L. Clingan, deceased, died of pneumonia at Santa Ana November 5, 1836, in Pennsylvania, and tember 3, in Pennsylvania, and spent her early life in Ohio and went to Iowa, where in 1831 she was married to Robert L. Clingan.

She lived a number of years in Des Moines and came to California in 1906. Surviving her are four children, Anna M. Clingan, Nellie E. Clingan and F. M. Clingan, of Santa Ana; and Huett N. Clingan of Lewistown, Montana, and three grandchildren, Robert and Carol Clingan, and Merton P. McGlothlen of Des Moines.

She was a member of the Baptist church nearly all her life and was connected with the First Baptist church.

The funeral was held November 8, 1919, at Smith & Tutill undertaking parlors, Dr. Frederick Davies conducting the service. Interment was made in Fairview cemetery, Santa Ana.

Our Birthday Party Is A Lively Affair

Thousands of guests already have enjoyed a visit at the home of the Huskiest Youngster in Orange County. We want you at our Birthday Party too.

Our store is three years old this month. In the celebration of the event we are throwing the great stocks wide open to the public—dividing up the profits in token of our appreciation of the confidence the public has given us.

There are Birthday offerings in every department in the big store. The new things coming in since the sale started are being put right into the stocks at the Anniversary Sale Prices.

See the big birthday cake in the window. Come with the crowds to Santa Ana's busiest shop. Make yourself at home and get your share of the birthday offerings.

Great shipments of new models in Coats, Suits and Dresses have just arrived and every one of these splendid new garments is being put on display with an Anniversary Sale Price.

ASSOCIATION IS TO SELL THEIR WALNUTS

The Santa Ana Walnut Growers' Association will receive new members now and handle this year's crop for them in the association's second pool, the nuts to be delivered after the house is cleared of walnuts of present members. A special contract will have to be signed. There will be an informal gathering of association members, and other walnut growers who desire to attend, at the city hall Tuesday evening at 7:30 o'clock. Monday the packing house will be closed, and Tuesday nothing but dry budded walnuts will be received. The dry buds must all be delivered then so that they can be sold in the holiday trade.

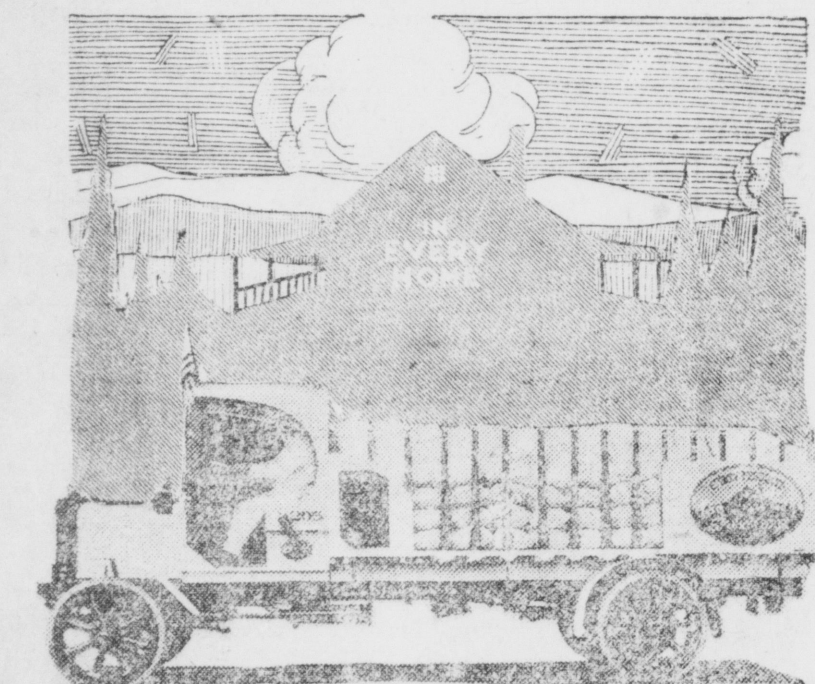

U. S. NAVAL AVIATOR TO DO RECRUITING HERE

Word has been received at the local recruiting station this date that Ensign Robert G. Stephens, U.S.N.R.F., naval aviator, will be at the office here Monday, Tuesday and Wednesday in connection with naval aviation recruiting. Anyone desiring to obtain any kind of information in connection with naval aviation may obtain it by applying at the office and personally interviewing Ensign Stephens.

CANDY STORE DEAL SCRAMBLED-COURT

Mrs. Claudia Alling Winner
In Suit Over Confectionery

What Superior Judge Williams characterized as "scrambled possession" on the part of Grover Deakins, of the Cherry Blossom Cafe at Anaheim resulted in his being the loser today in an action through which he sought a permanent injunction against Mrs. Claudia Alling, which would have restrained her from being about the premises.

Mrs. Alling is the defendant in a suit brought by Deakins for an injunction and for \$200 damages which he had alleged to have sustained because of Mrs. Alling's presence in the Anaheim Confectionery.

At the hearing before Judge Williams on the question of whether a temporary restraining order should be made permanent testimony was given by Deakins, W. T. Alling, husband of Mrs. Alling, and H. S. Jayne, Anaheim agent for a newspaper.

It was brought out at the hearing that Alling had sold the Cherry Blossom to Deakins on a contract calling for the payment by Deakins of \$10 and \$50 per month. The Court called Alling's attention to the fact that the fixtures of the confectionery and the household goods in the rear of the premises, where the Allings live, is community property and that therefore Alling had no right to dispose of it without Mrs. Alling's consent, which Alling appeared to have done.

APPEAL FROM BEACH JUSTICE COURT FILED

Attorneys Bishop and Wellington, on behalf of the Wilson Brothers Commercial Company of Newport Beach, today filed an appeal in Superior court from a judgment in justice court at the beach city, wherein he commercial company, who had sued Frank Terry for \$100.80, alleged to be due for services rendered and material furnished in the repair of a motor boat, was awarded \$30.50, the over court having held the amount asked by the plaintiffs to be excessive. The complaint recited that during the month of September Wilson Brothers expended labor and material, to the amount of \$72.80, on Terry's boat, and that there was also due the sum of \$28 for damages on the ways for the boat from September 15 to September 29. In an answer filed by Terry in the lower court he claimed that the services performed by the company had consisted merely in towing his boat between Balboa and the mouth of Newport Bay. Justice Leo Goepfer gave judgment in favor of the plaintiff, Charles D. Swanner is attorney for the defendant.

Habeas Corpus Writ Denied by West in Ex-Soldier's Case

DECIDING that cases cited by Attorneys Stanley M. Reinhaus and Charles D. Swanner in connection with their contention that James Russell Hudson, who was held to answer on a charge of non-support, brought by his wife, Grace Hudson, was being illegally held in the county jail, were not in point, Superior Judge West today denied a writ of habeas corpus.

Efforts were being made today by Hudson's attorneys to bring about an adjustment with the office of the district attorney, whereby the criminal proceedings against Hudson would be dropped. Attorney Reinhaus stated that if these efforts failed he would apply for a new writ of habeas corpus in the court of appeals.

PLEADS NOT GUILTY
In a complaint sworn to by Mrs. Janea Honea, and which was on file today, Will Moore is accused of using profane, loud and boisterous language in the presence of women. In justice court Moore pleaded not guilty. He will be tried on November 13 at 10 o'clock. He put up \$25 bail.

ACTION OVER GIRL'S DEATH IS DISMISSED

Dismissal was entered yesterday by Atty. Leonard Evans of Anaheim in an action instituted by him in behalf of Thomas A. Thomas in January of this year for \$5000 damages growing out of the death of Thomas' little daughter, Eleanor, who was drowned on October 18, 1919, in a ditch of the Anaheim Union Water Company at Fullerton.

City Marshal Jernigan, in a complaint which was on file today, charged G. L. Boswell and P. C. Honea with using force and violence upon the person of William Moore. They pleaded guilty in justice court and were fined \$5.00 each.

NEW GARAGE, PLAN OF SUPERVISORS

County Buildings East of the
Courthouse to Be Sold
On November 18

Pursuant to an order of the board of supervisors, there will be offered for sale at public auction at the south front door of the courthouse on November 18th at 1:30 o'clock, three houses, at 116 Church street and 621 and 627 to 629 North Sycamore street, Santa Ana, acquired several months ago by the county. The purchasers will be required to remove the houses from the lots on which they are located immediately after January 1.

The property upon which the buildings stand is 100x105 feet in size. The removal of the buildings will be followed by the construction of a county garage which will cost approximately \$20,000 and for which plans are being drawn by W. W. Kays, a local architect. Information regarding the sale on November 19, may be had of County Purchasing Agent, F. W. Slabaugh, it is announced.

WINS DIVORCE
Lena K. Dayton today was free of matrimonial bonds, Superior Judge Williams having granted her an interlocutory decree of divorce from William A. Dayton. Dayton must pay his wife alimony of \$20 per month and the wife is entitled to the household furniture, according to the order of the court. Marks & Launer of Fullerton, were attorneys for the plaintiff. Testimony was given by Mrs. Dayton, D. L. Ellis and Marie Heckendorn.

CANCELS DEPUTYSHIP
Sheriff C. E. Jackson today filed a notice that the deputyship of Charles C. Carrillo, interpreter at the courthouse, had been cancelled.

PICKS UP SHORT CUTS TO REPAIR, EFFICIENCY ON FORDS

Shop Foreman at Ford Garage Returns From School at Factory

E. M. Roe has seen and conquered—he has been back to Detroit and put in five weeks around the Ford factory getting Ford efficiency and ideas on short cuts to repair work. He perhaps is not known to many of the local people as E. M. Roe, but when it is said that he is Gene Roe, foreman at the Ford Garage and pioneer Ford repair man, why that is different. Gene is known to hundreds and hundreds of people in Orange county as a master mechanic in operations on Fords, for that has been his particular game for a great many years. He knows the machine like a book, and it will perhaps be news to hosts of his friends to know that many of the little things that enter into the efficiency of the reliable and sturdy "animal" are adaptations of the inventive genius of Roe. The factory has accepted numerous suggested improvements advanced by him, one of the most important of which is the low-speed adjustment.

Gene didn't stick around the factory for five weeks without picking many pointers that will prove of value to him in directing the operations of the repair department of the local Ford garage—pointers that also will prove of value to patrons by reason of the elimination of some of the costs of repair work.

"I was impressed with the immensity of everything about the Ford plant at St. Louis," said Roe, who has recently returned from there. "I spent in thirty full school days in the five weeks I was there. It was a five weeks' course in actual machine and construction work on the Ford, and believe me, I caught on to many short cuts in the handling of repair work, as well as assimilating some of the high points in the efficiency so evident in the factory."

"Speed and precision are the dominating notes of the big plant. We heard this in the lecture room and from the factory management. We had one hour each day of lecture and class work and the balance of the time was put in the factory doing personal work in the production of the machine that has made Henry Ford noted and has brought delight to the hearts of thousands of families who today are enabled to enjoy the conveniences and pleasures afforded by cars who could not have enjoyed them had it not been for Henry Ford."

"The Eagle plant, the plant where Ford was doing his dullest in developing equipment to help Uncle Sam lick the Germans in a landsea fighting, is two and a half miles long and 500 feet wide, and it is to be converted into a blasting furnace and body factory. And, do you know, the company is preparing to build the Ford out of the ground, as it were—for it is now making preparations for making steel direct from the ore, a feature that will make it more or less independent of big iron companies."

"The number of men employed at the home plant is 52,000—some army, isn't it? They work in three shifts of eight hours each—and you never hear of a strike in the Ford factory, and you never hear such a thing even talked or suggested. The management has taken its employees into partnership, and they are some happy workmen—contentment is written on the face of everyone of them—and they give the best they have in them while on duty, for they realize that they are to share in the earnings."

REMODELED HOME OLDS IS PLAN NEW COUNTY AGENT

DeVaux Secures Three Years Lease, Will Make Improvements 421 W. Fourth

With a lease on the building at 421 West Fourth street for three years, J. J. DeVaux, Oldsmobile distributor for Orange county, has plans out for alterations that will make his display room and garage equal to the best in the city. He contemplates the expenditure of about \$1000 in changing the front to suit his ideas of what an up-to-date showroom should be.

The present driveway located in the center of the room will be closed and the entrance made on the east side of the room, with a smaller door for the convenience of patrons in entering and leaving the display room. The back of the display room will be about twenty feet from the front window and the full width of the room, minus the space required for the entrance. A mezzanine floor will take care of the office and parts room, so that there will be ample space at the rear of the display room for the repair and storage departments.

H. S. Gilnet, salesmanager for DeVaux, is authority for the statement that Oldsmobiles are now available for immediate delivery, with the factory in position to meet immediate demands. This is some factor these days, when auto agents are seriously handicapped in their business by inability to get cars in sufficient numbers to meet the demands of their territories.

"In taking the agency for an automobile, the first thing to investigate is the personnel of the company manufacturing the car," said DeVaux to the five weeks I was there. "After doing this, then one should look back and determine whether the firm has ever manufactured a poor car, and then, after satisfying one's self in this particular, the prospective agent should make it a point to interview all the owners of this particular manufacture in the territory in which it is proposed to establish the agency."

"Before taking the agency for the Oldsmobile in Orange county I knew the company had been a leader for twenty years, and knew it always had manufactured an exceptionally sturdy machine—always up to the minute in improvements and changes the automobile has made from year to year. Then I came to Orange county and spent some time in getting data from users and owners of Oldsmobiles. I heard nothing but praise for the car from the lips of the owners."

"Under such circumstances, what would anyone do but accept an agency, especially when that agency is offered in a county as rich and as prosperous as Orange county—the best little county in the land, in my opinion."

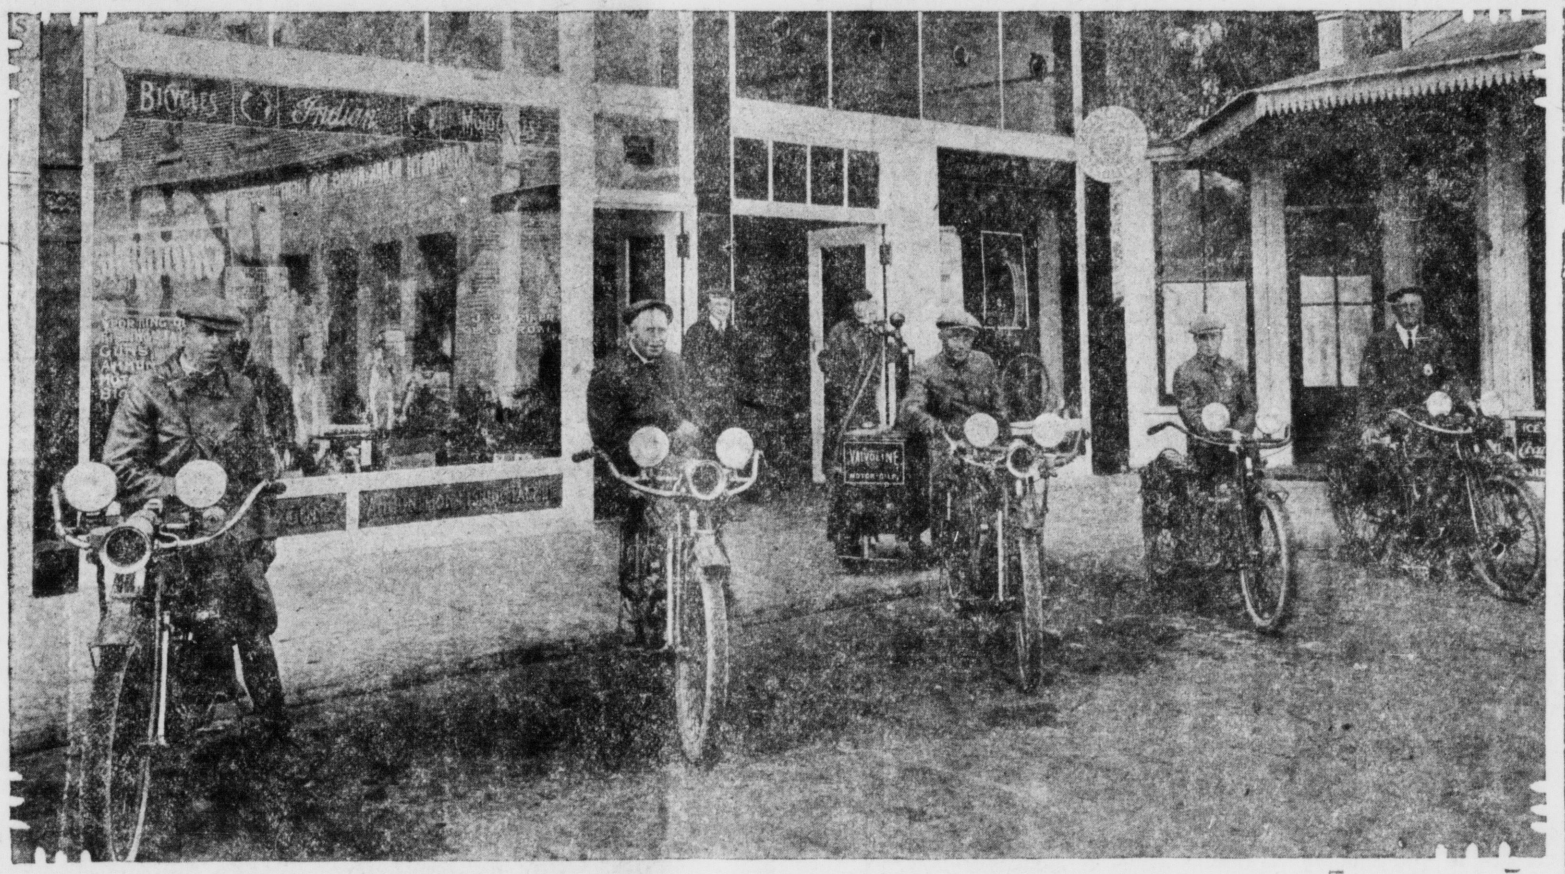

DeVaux will proceed with his plans for alterations just as fast as possible, and when he gets them completed he will have a cosy home for the Oldsmobile and handsome place in which to extend courtesies and receive patrons and prospective purchasers of Oldsmobiles. In the meantime he is in the market to sell cars and no one contemplating the purchase of a car should hold aloof from calling on him while improvements are under way, for he shows the car in its latest and popular model and can make delivery at once.

Ed Honey, Orange Pioneer Relates Hunting Episodes, Killing of Mountain Lion

ONE of the pioneers of the near-by mountains, a man who hunted deer not so often for sport as for a supply of meat, whose story is today added to the Old Hunter Series, is Ed Honey—E. A. Honey—of Orange.

He went into the Santa Ana mountains in 1875 when game was plentiful. His stories of early days are told with an attention to detail that adds a lot of interest to them. One of the most interesting of his experiences related to the Register man concerns the killing of a big mountain lion. That story is included in today's Old Hunter story.

A mountain lion in a big oak tree, screaming, snarling and whining; four men and a boy, yelling with excitement; a big dog with a voice as big as a bear's barking as loud as he knew how to bark; four shots, and the lion still screaming; a fifth shot, and down he came.

If one can get a picture with all these and a lot of other details in it, he will get some idea of a lion hunt that terminated about 11 o'clock in Aliso canyon in May, 1879.

But before the story of that lion hunt is given, the reader had best take a journey back a few years previous to that time when Ed. Honey drove up into the Santiago canyon, and from it made his way on up into a canyon that the Mexicans in those days called Major Viejo canyon, (Old Woman Canyon), and there took up a homestead. He started a bee ranch and made it his home until the place was sold by him to Smith and Chas. Baker. The canyon afterward became known as Baker canyon.

Sees Locked Horns

For a time he worked for W. H. Hall, "Old Man" Hall, who died a long time ago and who gave his name to Hall's canyon. Hall's place is now the Pixley place.

"Hall was a Scotchman, a deacon in the Presbyterian church at Anaheim, and every Saturday he hitched up his team and drove to Anaheim, so that he could be on hand for church on Sunday," said Honey. "One Saturday he was going out, on a flat to get his horses when he came across two exhausted bucks that had been fighting. Their horns had been locked together."

Readers of the Old Hunter stories will remember at once that this story of the bucks whose horns were locked together was told a few weeks ago by J. C. Joplin. But Honey himself saw the horns.

"Hall tied the bucks' horns together, went back and got a butcher knife and killed them," said Honey. "I saw those locked horns around there many times. And believe me, they were locked. I tried to pull them apart, and other men tried, and nobody was ever able to do it. Each of those bucks was a four pointer, four points on each side."

"Yes, I used to hunt deer a good deal in those days," said Honey. "I had a 44-calibre Henry at first. I'd hunt to keep myself in venison. Those days it was no trouble at all to go out and get a buck. Upper Hall's canyon was very rough and brushy, and I used to go over into Silverado canyon generally, and I never came back without one. I used to hunt a good deal with Will Alvord."

"Those days I'd trade the deer hides to Davis Brothers at Anaheim for ammunition, one deer hide for a box of fifty rifle cartridges. Later I got a 52-calibre Remington, a whole of a rifle, made for killing buffalo."

See in Ladd's

"In my time the bear did not get down as low as Hall's canyon. They used to come into apiaries in the Silverado, though. Along about the time

Arrives from East, Buys Auto and Home Same Day

Arrived in Santa Ana at 2 a. m., and the owner of a home and new Oakland Sensible Six before sunset of that day—this is the record of George Baxter, who this week returned to Santa Ana for the sixth or seventh winter. Baxter is hardly a tenderfoot, for he has been coming for the past six or seven winters, although his home is still in the east. Heretofore he has had little trouble in renting a house, but when he arrived this week he found things quite different, and bought the property at 606 South Main street without hesitation when he heard of the scarcity of residences.

He is about ready to make his permanent home in Santa Ana, anyway, so he had no hesitancy in buying. He has about sold out his interests in his eastern home, and anticipates returning there next May to clean up and return here for the remainder of his life.

He had to have an automobile, so he rushed around to the Edgar & Hays garage and negotiated the purchase of an Oakland, as good luck would have it, the firm having a car available for immediate delivery.

Edgar & Hays reports the delivery of New Oakland Sixes as follows: Reinhold Krueger, Orange; David Meyer, 110 W. Santa Clara; F. E. McCarter, 1129 Orange avenue; Geo. Baxter, 606 S. Main; A. L. Whitman, Orange; J. L. Bush, Olive; Walter Barker, San Luis Rey.

The firm makes some special effort in handling second-hand cars and recently have sold the following: Juan Marquez, 105 Grand avenue, Santa Ana; T. F. Farris, G. W. Parkey, G. Miller, Orange; Myron A. Warner, R. D. 4, Santa Ana; N. M. Bolinger, Harper; N. A. Thompson, Keystone apartments, Santa Ana.

Much Interest Excited By Medium Middleweight Speed Machine

County and city motorcops are riding Indians, handled through Carriker and Crowl, who recently opened an agency in Santa Ana at the corner of Broadway and Fifth streets, and the speed chasers have been putting their machines through paces that have fully tested their speed and stamina. The cops are satisfied and that means that the machines have responded to every demand.

Reflecting the continental design more than Indian since the T. T. series, the Scout model of the Indian factory is expected to be on display in Santa Ana one day this week and one day in Orange. The machine is now in Los Angeles and Carriker and Crowl have been promised a one-day display at each of their places of business.

The Scout is the new medium-powered middleweight which has been in process of development the past year. It has excited unusual interest, because of its type and characteristics. In many respects its building has been marked by radical departures from previous Indian practice, and it has won so many staunch friends informally that much will be expected from it when it takes the road in quantity as a standard product.

It is practically assured that the Scout will be the favorite of the Indian line the coming year, and its performance will be followed and analyzed with the keenest avidity.

It is expected the new Indian will be coming through in commercial quantities within the next month, for Carriker and Crowl are anticipating machines on the floor of their agencies within the month.

For satisfactory service in every respect rely on the Sultorium, corner Fifth and Main. Phone 279. P. L. Briney.

Yuba tractors. A. F. George Co., L.A.

DRAPER INVESTS SOME WEALTH IN CADILLAC

R. L. Draper has a fad for owning good automobiles as well as growing beets and beans and he has invested some of the vast amount of wealth he has acquired this year through his farming activities in a Cadillac roadster, delivered to him this week by the Cadillac Garage Company. This makes the fourth machine that Draper is buying gas and oil for and paying taxes on, but he moves swiftly in his farming operations and therefore must have equipment to help him keep up the gait.

With holdings of 200 acres more in the northern part of the state and something like a hundred in the vicinity of Smelter, he has something of a supervisory job on his hands, and he keeps his personal car on the move. The others are used by foremen and members of his family.

SPOTLIGHTS ARE BARRED IN CANADA

Use of spotlights on motor cars is now forbidden in Canada. A copy of the new Motor Vehicle Act of Ontario provides: "It shall be unlawful to carry on any motor vehicle operated on a highway any light which revolves upon a pivot or other device so that rays of such light may be projected in different directions."

The motor clubs of Buffalo and other border cities are calling the provision of the new law to the attention of motorists who plan tours into the Dominion.

GRUELLING GAME GOES TO LOCAL WARRIORS BY CLOSE CALL

Despite Handicaps, Spud's Charges Bring Victory to Crimson and White

In the closest and hardest-fought game of the season, the Santa Ana High School eleven defeated Pomona High School squad by a score of 7-6. The game was called at 3:30, and it was a repetition of the Fullerton game as to the crowd.

It is declared to have been highly lucky that the fatal Fullerton game was played early in the season when the Santa Ana warriors were experienced, as with all their men in shape the locals will give any school all that's coming to them.

Santa Ana was handicapped yesterday, as Clark, the crack local guard, who has never run up against a man yet that could handle him, is sick. Stark, who has shown up to be one of the best ends, is out with a bad shoulder. Remsburg, who has had trouble with his neck, was not able to play all the game, and Cock, the Santa Ana demon fullback, who hasn't met his equal in the league, was put out in second quarter and again in the third, because of a bad leg.

Despite all these handicaps, the Santa Ana warriors went into the game with determination and fight.

In the first quarter neither team opened up, using mostly bucks through the line and a few end runs. Toward the end of the quarter the Santa Ana aggregation rallied, carrying the ball to the Pomona ten-yard line.

Spangler Makes Score

In the second quarter, after a series of bucks, Spangler, on a buck between center and guard, carried the ball over for the first touchdown of the day. Taylor converted. Santa Ana kicked off to Pomona, and after a series of bucks without making yards but once, Nichols, the speedy left halfback from Pomona, got away for the longest run of the day and a touchdown. Pomona failed to convert. The score at the end of the first half, 7-6.

In the third quarter it was a struggle royal. The Santa Ana battlers would make yards by line bucks and short end run and finally would be forced to punt. Then Nichols, on a single end run, usually on their "Statue of Liberty" play, would run for from forty to sixty yards and then Santa Ana would hold the foe for downs. Pomona, in only two or three cases, was able to buck through the Santa Ana line.

In the fourth quarter, with Strong at full, Hillyard and then Coffman at Remsburg's end, the two teams again played about even, although Pomona along toward the end of the quarter ran the ball to the Santa Ana forty-yard line, when time was called on account of darkness, with five minutes yet to play.

The Lineup

The Santa Ana lineup was: Remsburg, Hillyard, Coffman, right ends; Westgate, right tackle; Dungan, right guard; Denning, center; Peitz, left guard; Brown, left tackle; Arkley, left end; Wilcox, quarter; Taylor, left half; Spangler (captain), right half; Cock, Strong, full.

Spangler, at right half, played a

KILLING TOLD
BY ED. HONEY

Latest Swift Transportation
Method Employed In
Speeding Production

"Express companies and the mail service proving inadequate to get parts from Chicago to the Chandler Motor Car Company, in Cleveland, the factory, determined to keep up production, is now employing airplanes to deliver parts," declares W. R. Gordon, salesman for Charles L. Davis, local Chandler distributor.

"Production troubles in Chicago, where sockets and plugs for Chandler headlamps are made, caused a serious shortage recently of these small but very necessary articles. Things looked bad at first, but finally almost normal production was resumed, and everything would have been fine—except for the need of fast transportation service between Chicago and Cleveland.

"Efforts to get these parts through speedily enough to catch up with production were to no avail. Regular special delivery mail, railway express and even baggage were not adequate because the sockets and plugs weren't being made fast enough to permit shipments at sufficiently frequent intervals.

"Some other method of transportation had to be found. And it was, for now these parts are coming through by airplane special delivery mail, and this shortage has now been practically overcome.

"There is nothing particularly startling about all this, perhaps, except that it illustrates vividly the determination with which manufacturers in the automobile industry have been working throughout the year to overcome production difficulties. No effort and no reasonable expense have been spared.

"And yet the average motorist, not being able to get his new car when he wants it, finds difficulty in appreciating the strenuous times that manufacturers have gone through. Really serious troubles, too, and we are proud that it has been possible for Chandler production to reach its present magnitude."

HARRY KENYON NOW
WITH JACK WILLEY

A noteworthy addition to the Jack Willey Diamond (the sales force) is announced in the person of Harry Kenyon, formerly active in the affairs of the Buick Garage here. For the past year Kenyon was in the automobile game at Long Beach, and only recently has he returned to become an outside salesman for the Jack Willey organization in the Orange county and Pomona Valley territories. Kenyon is now living at Orange, and there he has already scored one of his notable sales, placing more than \$300 worth of tires in one Diamond retail shop in one order.

HERE'S EASY WAY TO
FIX THE COTTER PIN

A simple and convenient way of finding the hole for the cotter pin to file a notch in the end of the belt or stud parallel with the hole. In this way it is easy to bring the notch points to the castellation at each end, when the cotter pin will slip readily into place.

Crawl Type Machine, It Is
Believed, Could Buck
Successfully

The use of the crawler type tractor for keeping roads clear of snow is a suggestion which comes from Europe. A mountain climbing demonstration was given recently in the Alps, in which converted war tanks of Peugeot and Renault types participated. The object was to show the feasibility of using such tractors for the transport of supplies and produce to farms lying from 3000 to 7000 feet above sea level.

Among the observers of the demonstration and one who rode on one of the tractors to the end of the climb, was General Estlinne, at the head of the French Army Tank Service. His suggestions, after his experience, was that if some modification be made in the track so that the machines might negotiate snow, they would be valuable for keeping the mountain roads open during the winter by hauling snow plows.

The suggestion is by no means impracticable and is worth consideration for adoption for the same purpose in this country. With increased demands upon the highways of the country for motor truck transportation, it would seem entirely feasible to use crawler type tractors for keeping the roads clear of snow.

Whether in practice a snow plow or scraper should be pulled or pushed is a detail which experimentation would determine.

S. A. BEATS POMONA
IN HARD CONTEST

(Continued from Page Nine)

wonderful game, both at carrying the ball and punting. Taylor, at left half, played his best game of the year and his playing in this game could hardly have been beaten. His bucking through the line was always good for gains.

Wilcox, at quarter, played a wonderful game and showed his ability to run the team. Denning played his best game of the year yesterday, making accurate passes and breaking up plays.

The rest of the line and backfield played a wonderful game, although they had some trouble in stopping Nichols, who is probably one of the best halfbacks in Southern California.

Santa Ana will be in the running for the championship of the league if San Diego defeats the Fullerton team this afternoon. Santa Ana will play San Diego next week.

VILLA PARK BRIEFS

VILLA PARK, Nov. 8.—Mrs. Hugh Thompson spent Wednesday in Los Angeles.

Mr. and Mrs. Frank Lord, Mr. and Mrs. J. M. Gillogly and Miss Gertrude Gillogly motored to Long Beach and return on Wednesday.

Rev. J. J. Jones of Villa Park Congregational church, attended the Brotherhood meeting of the First Congregational church of Santa Ana Monday evening and reports a most helpful as well as enjoyable time. The speaker of the evening was Dr. Stevenson, pastor of the First Presbyterian church of Santa Ana.

On Tuesday, Mrs. Hugh Thompson and Mrs. Ray Billingsly attended an all-day reunion of former Villa Park residents at the charming home of Mrs. Walter Veiriga (formerly Mrs. Lula McPherson) at Hollywood. The day was spent in reminiscent conversation. A sumptuous lunch was served at 1 o'clock by the hostess. The guests were Mrs. Anna Hoyt and son of Hollywood, Mrs. Stuart Slintham and Mrs. Stanley Searle of Los Angeles, Mrs. Stephen McPherson of Orange and Mrs. Hugh Thompson and Mrs. Ray Billingsly of Villa Park. It is believed that this is a beginning of a round of Old Settlers' days at the various homes of those interested.

A Christian Endeavor social was held at the Congregational parsonage Friday night at which a score or more of the Villa Park young people were participants. Although one week late, it was an evening of Halloween festivities and most all of those in attendance appeared in masquerade costume. Halloween jokes were in the air and the event proved to be one of such merriment as youth always lays claim to on such occasions.

Mr. and Mrs. C. E. Lush spent Wednesday in Los Angeles.

Geo. L. Nichols, who has been visiting his brother, H. D. Nichols, and family during the past week, left Thursday afternoon for his home in Groesbeurg, Vermont, accompanied by his mother, Mrs. Hattie L. Nichols. They will make two stops on their east-bound journey, one in Kansas and the other in Wisconsin, to visit with relatives.

Mrs. Stanley Searle is an over-Sunday guest in her parents' home, that of Mr. and Mrs. Ray Billingsly. Mrs. Searle is a fine vocalist and will sing at the Congregational church on Sunday morning.

WET DISTRIBUTOR
WILL CAUSE MISS

Intermittent missing is sometimes caused by moisture or grease on the tension distributor face. The current runs across the surface of the water or grease instead of following its proper course. It is a good idea to give the distributor a cleaning at frequent intervals.

Hunting Episodes of the Early
Days Recalled By Orange
County Pioneer

(Continued from page nine)

Jim Buckley and Alvord were cutting wood in that canyon—and by the way the old name for Silverado canyon was Madera canyon, meaning Timber canyon—I hauled 200 stands of bees into the Silverado for a Tustin school teacher named Sallee. The bear got into that apiary and smashed things up considerably. They got into Woodman's apiary, also.

"Henry Cassidy and Goldie Slanker were hunting over the ridge in the fork of Ladd's canyon, when they saw a bear asleep in a hollowed-out place. Cassidy went on one side and Slanker on the other. Slanker shot first, and Cassidy next. Either shot was enough to kill the bear. The bear came up on the rise and looked around for the enemy, and died right there.

"Cassidy, Slanker and Jim Smith—the same Jim Smith who used to be S. A. V. I. Co. superintendent—were out hunting one day, when they came onto some outcroppings of coal, and for awhile we all thought they had a coal mine. Doc Rowan and DeWitt Hayward got interested in it, and they put down a shaft, when along came the Southern Pacific and laid claim to the land, and got it.

"I very well remember the time that Jonathan Watson and Billy Carter of Olive were in the Silverado when a bear rushed them and got his teeth into Billy Carter's shoulder, and Watson killed the bear when it was right up against him." This story, too, was one told in one of the first of the Old Hunter stories.

Lion Doing Damage
It was along in the last of the seventies that Honey traded with Jim Hickey, who was a pioneer livery stable owner in Santa Ana, for a location in Aliso canyon, along where the Serranos now live. While there Honey raised goats.

"It was while I was living over there that I killed a mountain lion," said Honey. "The lion had been around there for a quite awhile, and had done a good deal of damage. A mountain lion is a powerful animal. He can carry away a hog or deer without a bit of trouble.

"One time I was hunting in the Tehachapi, and I killed a big deer. I drew the deer, and left the heart and liver on a rock, while we went back after two other deer we had killed. When we returned to where this one deer had been, we were surprised to find the deer gone, heart, liver and carcass.

"There wasn't a track to be seen excepting our own. Nobody could have stolen it. I scouted well out around the place looking for tracks, and I saw in the leaves what looked as though a stick might have been dragged, the barest kind of a trace. I followed that for 100 yards or more, and came to a little gully filled with leaves. Beneath a big pile of leaves we found our deer. By tracks we knew a mountain lion had taken that deer there, and had carried him bodily, with only one leg dragging lightly on the ground.

Lion Gets a Hog
"This mountain lion in the Aliso killed a hog of mine, and carried it away. That hog weighed every bit of 150 pounds.

"Before that, however, he had tackled a mare and had killed three yearling colts belonging to the Serranos. The mare was in bad shape. She had the tendons torn loose at a hind ankle, and the tendons at the hock were pulled out. We judged that the lion was on a limb of a tree and jumped, and missed his jump. Instead of landing on the horse's back, he landed on the rump and slipped off.

"After the lion got my hog, I decided to put in time getting him. I had a good hunting dog named Old Ring. He was half bloodhound and half foxhound.

"We started out with Old Ring one night, hoping to get the dog on the cat's trail. There were five or six in the party. John Cuddeback, who was my brother-in-law, and Andrew and Idaho Frame, whose father owned what is now known as the Cook place in the Aliso, Miguel Sepulveda, a boy, and I.

"I had the only gun. It was a shotgun loaded with six shooter balls. The barrel just chambered three balls and I had twelve balls to each load. And I only had enough ammunition for five shots. I didn't expect to have to take that many shots.

"We made a wide circle on horseback, and were almost back home when Old Ring got after the mountain lion, and ran him up a big oak tree. His barking and the lion's yowling took us to that tree mighty soon.

Sets Up a Yowl
"Miguel got sight of the mountain lion first. It was just a little bit light, but still too dark to shoot accurately. The lion stood with his fore feet on one limb and his hind feet on another, but he didn't stay there, and he kept getting higher in that oak tree.

"How he did yowl! He made that canyon ring with his screeching. I never in my life heard any animal make as much of a noise as he made. And he kept it up, the shrillest screaming imaginable.

"I shot at him, but it was so dark against the black oak leaves that I missed. I shot three more times, and every time I shot the lion came back with louder screeching.

"I hadn't expected to miss, but still I knew I was taking chance shots, and he was busy jumping around. "That left me only one more charge, and the lion was higher in the tree than ever before. I sent Miguel down the canyon to where one of the Yorbas was living, and told him to get me some more ammunition."

THE SMARTEST
CAR OF 1920

FACTORY EXPERT
FOR MITCHELL
DEPARTS

Found All Owners In County
Are Fully Satisfied
With Service

Satisfied that every Mitchell car operating in Orange county is in first-class condition and is giving 100 per cent service and satisfaction, William Vorman, factory representative, has departed from Santa Ana, after making a thorough investigation of conditions here. He came here to call on Bickford & Bedford, county distributors, and incidentally to get in touch with the Mitchell owners and get first-hand information from them as to the performance of their cars. He was here to offer advice or make any adjustments that might be necessary should any of the owners not be satisfied. He had no adjustments to make.

He reported that in the ten states he handles in this service, the Mitchell is giving 100 per cent service.

"We are more than pleased with the way the Mitchell is standing up," said a member of the firm today. "Dollar for dollar is being given in this machine. Our customers are satisfied and that tells the story of the character of the Mitchell."

THIS CADILLAC CAR
WENT 350,000 MILES

Travel of 350,000 miles to date is the record rolled up by a Cadillac which is in bus service on the 35-mile stretch between Watertown, N. Y., and Clayton, N. Y.

This figure is vouched for by Fred I. Dailey, who runs the Cadillac. Mr. Dailey tells how he bought the chassis in April, 1914. It then had a wheelbase of 145 inches, and he fitted it out with a 16-passenger omnibus body. In this shape, Mr. Dailey says he ran the car 310,000 miles.

Then he lengthened the wheelbase to 155 inches and increased the passenger capacity to 25. Since the car was enlarged, it has been run 40,000 miles, making the total of 350,000 miles.

Mr. Dailey says he has used three radiators, having experienced freezing several times in the severe Northern New York winters. So far as the engine is concerned, Mr. Dailey says it is practically the original. He has had three sets of piston rings and two new connecting rod bearings, and is still using the original cylinders and the original pistons. He says the engine works as smoothly and efficiently as it ever did.

CAMPAIGN ON RUSSIAN
THISTLE WITH HARROW

SAN BERNARDINO, Cal., Nov. 8.—The first real campaign against the California Bolshevik — otherwise known as the Russian thistle—has just been conducted in San Bernardino.

The pest has been cutting down alfalfa crops for the past dozen years. A unique type of harrow has been found most effective in loosening the roots of the thistle, and it is followed by a section of steel rail which gathers the uprooted weeds.

Alfalfa growers of Riverside and San Bernardino counties expect to drive out the unwelcome visitor in a few more seasons.

RULE AGAINST QUAKE
BY RIVERSIDE JUDGE

RIVERSIDE, Nov. 7.—In the case of Bowen vs. Hickey, involving title to a Palo Verde cotton ranch, heard by Judge Craig in Riverside yesterday a witness was under severe cross examination by Attorney H. F. Bridges, representing the defendant. An abstruse question had just been emphatically asked the witness when a slight earthquake shock startled the courtroom. General Frank C. Prescott of counsel for the plaintiff, leaped to his feet and roared:

"Your Honor, I object to the intimidation of the witness!"
"Objection sustained!" snapped Judge Craig.

DIRT IS COSTLY IF
LEFT ON THE AUTO

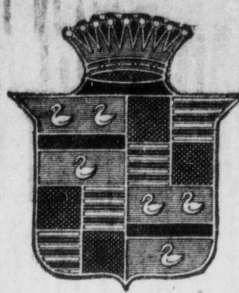

Dirt is undesirable, no matter where it is, but the average automobile owner has yet to learn that dirt on the running gear does more than merely cover up some painted or unpainted metal. Joints seemingly as tight as a mechanic can get them allow dirt to pass through. The reason for the dirt being so undesirable near the working parts of the chassis is not so much because it doesn't look well, but because it eventually gets to a moving surface and starts rapid wear.

GRABBING CLUTCH IS
DOING GREAT HARM

The car owner should remember that when the clutch is fierce in taking hold and does not have a slight slip, the mechanism that transmits the power from the engine to the drive wheels, particularly as regards pinions, universals and gear teeth, receives destructive strains.

KEEP THE TIRE VALVE
COVERED TIGHTLY

The driver of a truck or converter using pneumatic tires must be careful never to leave the cap of a tire valve uncovered. If the cap is lost a bit of leather or rag should be fastened over the stem with a string or a rubber band. If dirt or grit is allowed to enter the valve trouble will result.

AEROPLANE, CAR DECLARES WIRE WHEELS BETTER THAN WOODEN

Unusual Method Employed to Get Witnesses Into Los Angeles Court
Local Dealer Claims Greater Mileage Is Secured on This Type

An airplane, a motor car and a divorce, make a queer combination, but one that was brought about in the O'Hara family at Santa Barbara.

It all came about as developed in Superior Judge Taft's court in Los Angeles through an allegation made by O'Hara, that his wife and his mother-in-law, attacked him with their fists, while they were at the apartment of friends, Mr. and Mrs. G. W. West, Santa Barbara.

This is how the motor car and airplane figured in the situation. When Attorney Dudley Robinson, representing O'Hara was ready for the testimony of Mr. and Mrs. West, he discovered that they were at Santa Cruz Island, off the coast of Santa Barbara. To get them to Los Angeles to testify in court was the problem. Robinson asked for a continuance of the case for three hours. It was granted and in fifteen minutes the deal was made with Sid Chaplin Aviation Field, to send a Curtiss Oriole airplane after the West family. Art Hansen, the aviator who was to drive the plane also drives an Essex motor car and was found at his apartment in Los Angeles. Fifteen minutes later the Essex landed him at the field where the airplane was waiting for him, and without the loss of a minute's time, Hansen was on his way through the air to Santa Barbara. In another hour he was on his way back to Los Angeles with Mr. and Mrs. West in the airplane and by the aid of the Essex they were again transferred from the Sid Chaplin Field to the court, where they arrived within fifteen minutes of the time limit.

GETTING OFF FRONT WASHER DIFFICULT

The job of removing the wheel hub washer of the front wheel is often an almost impossible job, but it can be made easy by the use of a simple tool that can be made by any car owner. Take a pair of round jawed pliers five or six inches long. File a notch on the inside of each jaw near the end and then reduce the diameter of the jaws until they will just slip into the holes in the ends of the split washer. With this weapon it is easy to remove the washer. Simply hook the ends of the pliers into the holes, close the pliers to contract the washer so that it may be drawn out of the groove, when it is easy to slip it out by running a screwdriver point around the edge.

LEATHER TAKES THE RATTLE OUT OF CHAIN

The common method of locking spare tires is to use a chain and padlock. The only trouble with the idea is the noise incident to the rattling of the chain and the fact that it mars the finish of parts with which it comes in contact. Some car owners cover this chain with a bit of hose, but this is usually too stiff and is somewhat noisy and even permits marring of the finish. A bit of leather or heavy substitute, the length of the chain and wide enough to form a tube to inclose the chain offers a satisfactory solution of the problem. Turn in the edges of the leather case, and if you cannot do the job yourself the nearest maker will make the tube for you.

CAMPAIGN POSTERS BARRED FROM ROAD

Politicians will no longer be permitted to use the highways of New York state to boost their candidates. State Highway Commissioner F. S. Greene has just issued a ruling forbidding the erection of political signs along the highways and on state property. He has ordered all such signs already placed removed, declaring the state property shall be limited as far as signs go to markers giving directions and telling distances to points reached by the highway. His crusade against political signs was the result of wholesale disfiguring of the highways of the state with glaring posters booming various candidates, especially in upper western New York.

"Wire wheel manufacturers declare that tires will give a distinctly greater mileage on wire wheels than when used on other types. They claim that the metal spokes radiate heat faster and keep the tires cooler," says A. L. Philbrick, Santa Ana Racine dealer. "To my mind the chief benefit that can be obtained from the use of the wire wheel lies in the fact that a tire is much more apt to be applied 'true' and to keep that way when the wire wheel is used. When a tire is applied to a wire wheel, it has to be put on correctly or the rim will not fit. The opportunity for an uneven application such as exists with the use of the de-mountable rim does not exist with the wire wheel. I think owners who find an added mileage from the wire wheel above that which they have received from wooden wheels can attribute much of it to this factor."

"In this climate, with month after month of rainless weather a wooden wheel manufactured in the East is inclined some times to warp and loosen. This will sometimes be sufficient to throw the rim out of true. The wire wheel is of course not affected by climatic conditions. "In the matter of such strains as are imposed by backing into curbs, I rather think the wire wheel has the best of the wooden wheel, and is less apt to suffer deformation that will cause added tire wear."

CYPRESS NEWS BRIEFS

CYPRESS, Nov. 8.—Mr. Moody's son of Washington is here visiting his father and mother, and his children are attending the Cypress school.

Mrs. Ben Sconce received a telegram from her aunt, Mrs. Taylor, of Yuma, that they had started for Los Angeles, bringing with them Mollie Taylor, who is very ill with paralysis, which followed an attack of the "flu" about two weeks and a half ago. The telegram stated that she is not expected to live. The Sconces will go to Los Angeles to meet them Thursday morning.

Harry Covell is about to close a deal for the sale of his ranch this week. The Cypress people will all regret to see the family leave as Mr. Covell has taken much interest in all the things to improve Cypress and the surrounding country.

Mr. and Mrs. Jack Firquay, Miss Jessie Talkington and Mrs. Monroe motored to Long Beach last Sunday and took in a show while there.

Mr. and Mrs. O. P. Bunyard attended the ball game at Norwalk last Sunday afternoon.

George Miller had been entertaining this week Mr. and Mrs. Sid Reagan, who moved to their own house at Buena Park Thursday. They will live over Bishop's store until they can make different plans, as that was the only vacant house they could get.

Mrs. Charley Henderson motored to Alhambra last Sunday.

Mr. Russell's folks will leave Cypress for their new home which they have purchased in Artesia.

Milam Williams and family have leased their ranch here at Cypress to Mr. Watt of Anaheim for a year, and they have bought a small place at Bellflower. Miss Katie Williams has been working at Santa Ana, but came home this week to work in the beans.

The Los Alamitos Sugar factory quit slicing beets last Wednesday, but will have to work a few more days to finish up. Mr. McComey of Los Alamitos was the fortunate one to have the right slip of paper telling the time they cut the last beets. The boys made up a pool of \$240, at \$5 a chance. Mr. McComey won the money.

Bud Cawthorn and Mervyn La Rue have gone to Taft this week on a truck. Mervyn will go on to Tulare to visit with his uncle and aunt, Mr. and Mrs. George Stockton.

Mr. and Mrs. Hugh La Rue have returned from their trip up north and had a fine visit with their son, who is in Berkeley going to school. On the way home they stopped at their uncle's in Tulare.

The beaehery has a crew of twelve this week picking beans to fill a carload to be shipped east.

Mrs. Jack Dungan's brother-in-law has gone to San Diego this week to see about getting work there. He will move his family there.

Charley Cox has just arrived home from the East and reports a splendid time while there.

Mrs. Josephine Caliborn and children have been visiting her sister, Miss Jennie Burke, this past week.

Mr. and Mrs. A. R. Bradley entertained Mr. and Mrs. Clyde Stone of Pomona last Sunday.

George Miller is threshing his beans this week.

R. P. Mitchell will give a talk on the community schools next Friday afternoon at the Cypress school house at 3 o'clock.

Mr. and Mrs. O. L. Bunyard were visitors at the Gillison home last Monday.

Jack Fuquay has just finished putting down a good well on Mr. Clotier's twenty acres at Cypress.

Mr. Sconce's folks celebrated John Sconce and his sister, Miss Sallie Peak's birthday last Sunday with a big turkey dinner. There were present Mr. and Mrs. John Sconce, Robert Sconce, Mr. and Mrs. Ben Sconce and Mrs. Peak.

Mr. and Mrs. Cherry of Santa Ana took dinner with Mr. and Mrs. Athben Miller last Wednesday.

Mrs. George Miller got word from her brother, who lives in Arizona, that his horse threw him off and hurt him pretty badly, but he was recovering. The horse ran away, got tangled up in some barbed wire and bled to

The Story Our Customers Tell

Los Angeles, Calif., Nov. 5.

Osler Racine Rubber Co.
312 W. Pico St.,
City.
Gentlemen:

This is a letter of thanks for the splendid service received from a set of Country Road Tires.

We made a trip to Lake Tahoe, by way of San Francisco, then to Sacramento and Tahoe by way of Colfax and Donner Lake, and returned by way of Placerville, also side trips while at the Lake, a total of sixteen hundred and twenty miles, about eight hundred miles of it was Mountain roads.

Last year we went to Yosemite Valley on the same tires and have never changed a tire. It surely is worth a lot to ride while others are out in the hot sun working hard putting on a tire, and believe me, taking off and putting on a tire on the State Highway or up in the mountains and the sun burning a hole in the back of your neck is no job for me.

I am not using any Bill Head, as I do not need any cheap advertising. I have nothing to sell. I appreciate the comfort of having my machine equipped with your tires.

Yours very truly,
James Clark,
3718 So. Hope St.,
Los Angeles, Calif.

The letter at the left explains itself. It is the same old story that is told by all regular users of Racine Tires. It's the experience YOU'LL have after you have used a set of these excellent tires a year or two. Racine tires never disappoint anyone.

More Mileage For the Money

We have the proper size for your car, either in Country Road Tires or in Racine Multi-Mile Cords. Both are famously good and both are very strongly guaranteed.

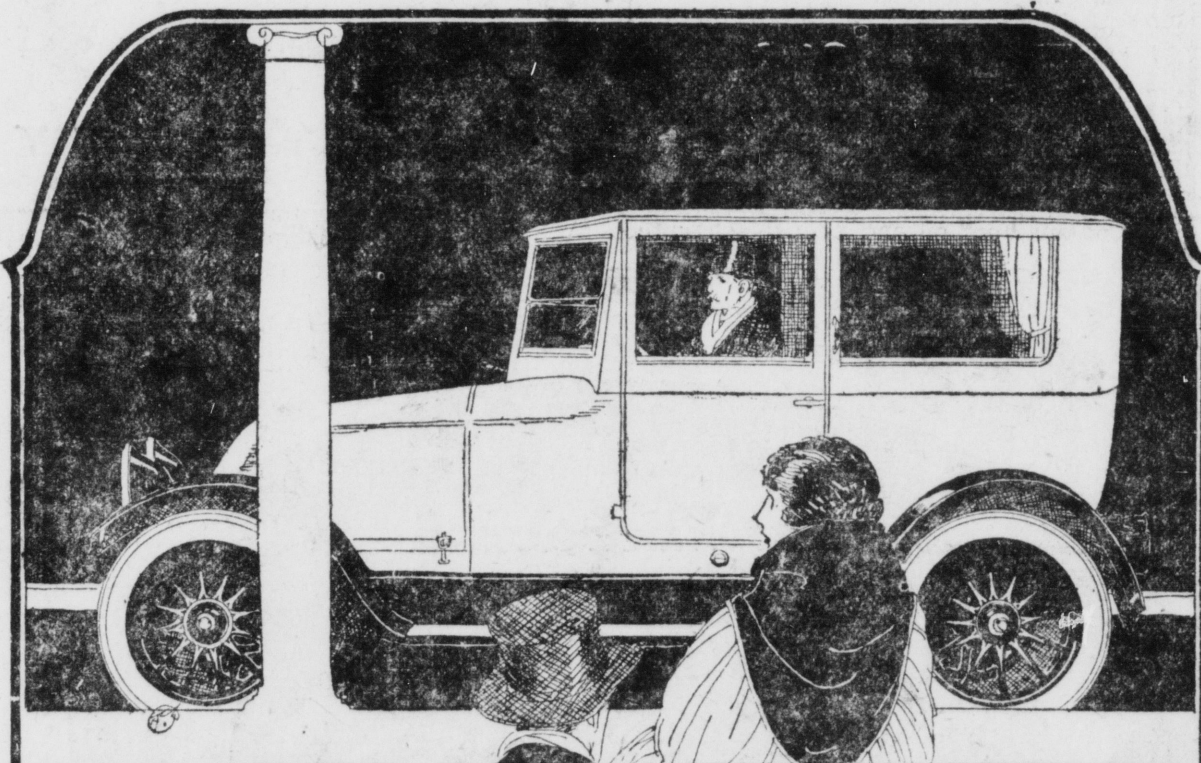

Let us tell you who some of our other highly pleased customers are.

We will show you how we can save you money in the long run.

Santa Ana Vulcanizing, Ignition & Supply Co.

517 N. Main St.

The Franklin Sedan

FREEDOM from tire trouble is one evident explanation of the motoring enjoyment of those who drive and ride in a Franklin Sedan, and this freedom is also a basic reason for its wide road range and unexcelled economy. Punctures and blowouts are almost unknown because light weight and flexible construction reduce the unyielding pound on tires tremendously.

These principles account, too, for the steady, rapid rate of travel a Franklin Sedan can maintain over all roads, and for its ease of control and riding resiliency.

Its economy is apparent in other ways than tire mileage. Owners' records show these results:

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation

During the months immediately following, it means a good deal to Franklin Sedan owners to be free from the worries and common troubles of cold weather use. The Franklin is Direct Air Cooled which means that there is no water to freeze or to necessitate frequent doctorings with anti-freeze mixtures.

Wide Observation Windows give unobstructed outlook; two Wide Doors increase riding view and facilitate entrance; its Slanting V-shaped Windshield adds fine lines and broadens driving vision. Together with the Sloping French-style Hood, these features make the Sedan a foremost design.

PIMPLES SO BAD COULD NOT SHAVE

Whole Face Covered. Caused A Burning Itch. Cuticura Heals.

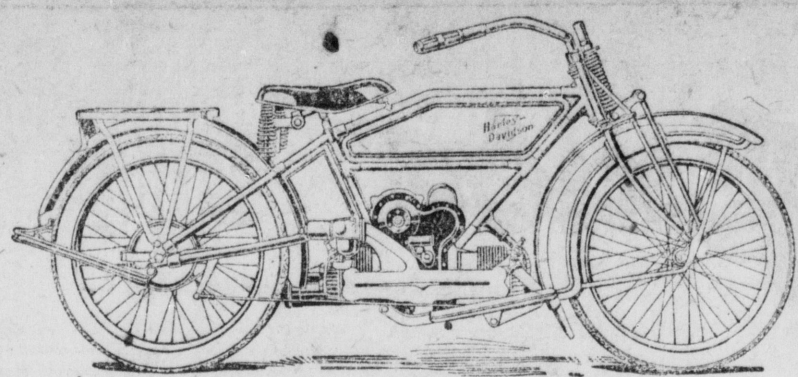

"At times my face was wholly covered with irritating pimples having white heads and a hard base. They were large and red and they caused constantly a burning, irritating itch, and for over a period of seven months were a source of great pain and worry. I was unable to shave."

"Then I used Cuticura Soap and Ointment, and I found my face clear and I was able to shave again. It was healed." (Signed) C. E. White, 530 Linden St., Oakland, Calif.

For every purpose of the toilet and bath Cuticura Soap, Ointment and Talcum are wonderfully good.

Soap 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the world. For sample each free address: "Cuticura Laboratories, Dept. H, Malden, Mass."

Cuticura Soap shaves without lugs.

Ford

THE UNIVERSAL CAR

THE RIGHT OIL

has a lot to do with the easy starting of your Ford in cold weather, for the clutch being constructed of 26 steel discs is continually swathed in oil. Each half of these discs revolve in opposite directions and if your oil is of a sticky, waxy nature, it results in a drag instead of a snappy turn over, which is necessary to obtain the spark. Wash out your crank case with coal oil and put in a gallon of our Ford oil and note the difference.

75c single gallon or \$3.50 for 5 gallons.

TRUCK NEED NOT DOBBIN NEARLY MOVE TO PROVE AN OUTCAST IN ECONOMY THIS CITY

Busy or Idle Motor Equipment Few Places In Santa Ana
ment Is Cheaper Than Where Hitching Posts
Horses, Asserts Agent Can Be Found

The statement that a motor truck must be moving to prove its superior efficiency over a horse is but a half truth, and particularly misleading because it inspires the false inference that the contrary is true of the horse, according to C. H. McCausland, Grant & Atterbury trucks distributor.

"On reflection it must be obvious that the value of animal power is more dependent upon motion than is mechanical power," said he today. "A horse in his stable or the truck in its garage is worse than useless, because neither makes any return on the investment; but the idle truck is much less expensive than the idle horse. Suppose a delivery equipment, consisting of two horses and wagons and one 1500-pound truck, were obliged to remain idle for a period of six months. Interest on the investment on two single outfits costing \$1120 at six per cent per annum would amount in the six months to \$33.60, and a \$1650 truck to \$49.50. Depreciation of the horses at 10 per cent adds \$25, and feeding and grooming them at \$2 per day, brings the expense for maintaining Mr. Dobbin for six months up to \$423.60, as against \$49.50 for the truck.

"So when you hear the assertion made that a truck's efficiency depends on keeping it moving, do not jump to the conclusion that it is more expensive standing still than a horse, because it is not. It is less expensive, and it is from five to eight times more efficient than the horse when moving."

City and County Briefs

G. L. Boswell and P. C. Honea, employed in a local restaurant, were taken into custody yesterday by J. H. Ryan and booked under a charge of disturbing the peace. They are alleged to have assaulted Jas. Moore.

City Marshal Jernigan has rounded up another bunch of boys who have been engaged in stealing walnuts. One of the boys has admitted stealing six sacks from the barn of N. E. Matthews on South Bristol. Matthews had discovered that the sacks were missing.

Wm. Coats, 135 Cypress avenue, Orange, is in the Santa Ana Hospital suffering from injuries sustained this forenoon in a motorcycle collision. His right eye is injured and his head cut. He and R. A. Sands were riding on separate motorcycles when their machines came together in an attempt to pass an automobile. Coats was in the lead and slowed his car down suddenly, with the result that Sand's car ran over him.

CHRISTIANSON MAKES COUPLE DELIVERIES

G. H. Christian, Maxwell agent, has been doing something else the past week than purchasing himself a home here in Santa Ana, for he has made two deliveries of the popular Maxwell this week. The 1920 model is proving a winner and the machine is being slipped into the hands of new owners just about as fast as Christian can get them. Deliveries just made were to Lemm Huntington of Garden Grove and A. W. Mefford of West Fifth street.

ORANGE PERSONALS AND NEWS NOTES

ORANGE, Nov. 8.—A large crowd attended the entertainment and wedding last evening given by the Fraternal Aid. The men of the lodge had charge of the program and games and carried things along with a rush. A wedding is never "new," but always interesting and from orange blossoms and veil worn by Ed Stinson as the bride to the father and matron of honor the wedding was fashionable to the extreme. The ceremony and baptism by Dr. C. S. Parker was touching, and the remarks of the father when he "gave away" the bride brought tears to every eye. The costumes of the bridesmaids, Crockett Riley and Owen Murray and those of the ring bearer, E. J. Brown and the flower girl, Henry Campbell, could not have been improved upon. The only part the women of the lodge had was to feed the assembled guests, and food giving out brought the entertainment to a close. Money for the balance of the debt on the Liberty bond was raised.

The library board has rescinded its action of several weeks ago in limiting patrons to one book of fiction and restored the old practice of allowing two books to a card.

"The action was taken," said Rev. Harris, president of the board, "to allow the board time to investigate and determine the best method of handling this matter. The board will consider the question and be prepared to take final action on it at the meeting next month."

Mrs. Hattie Nichols mother of H. D. Nichols of Villa Park, who has been visiting at the home of her son for the past year, left yesterday for her home in Vermont, accompanied by another son, George L. Nichols, who arrived a few days ago to accompany his mother on her trip home.

The death of E. J. Flaherty, formerly a resident on North Main street, Orange, occurred at his home in Hollywood on Tuesday of this week, from pneumonia. Mrs. V. A. Rossiter went to Hollywood to attend the funeral.

That Old Dobbin is being given very little consideration in this day of the automobile, so far as city accommodations are concerned, is evidenced in Santa Ana as well as other places, for one of the things held dear by our forefathers—and deemed absolutely necessary—has almost completely

It is the hitching post that once fringed every village square and which at one time every city was concerned in supplying for the accommodation of the public.

A Register scribe this week had the absence of the hitching post or rack in Santa Ana brought forcibly to his attention, when a stranger driving a horse and buggy accosted him and asked if he knew where he could find a post or rack to which he could tie his horse. How many people in Santa Ana could direct such an enquirer?

"Along with the passing of Dobbin in the cities, where speed is a necessary adjunct to business and pleasure, the rural districts, likewise, have forsaken their horse-drawn vehicles," said Bob White, local Franklin distributor, today.

"This is indicated, at least, in the reports to the Franklin Automobile company from trade representatives throughout the middle west, where farmers are buying automobiles in increasing numbers. Never before has the Franklin company experienced so heavy a demand for its car from the country districts as recently. Many of these orders are for sedans, the ability of that type of enclosed car to take all kinds of country cars with a maximum of comfort at a minimum expense is apparently being recognized."

TRUCKS BIG SAVERS IN STREET CLEANING

Street commissioners throughout the United States and Canada have brought out some interesting facts and figures relative to the great savings consummated through the replacement of horse-drawn equipment by motor street flushers. According to reports compiled by M. V. Pulcher, vice-president and general manager of the Federal Motor Truck Company of Detroit, Mich. The report of Andrew Macculum, commissioner of streets of Ottawa, Canada, is typical: "Each of our flushers mounted on motor trucks has replaced ten horse-drawn outfits. Two 1000-gallon power flushers mounted on 3 1/2-ton trucks operated all of 1918, flushing an average of 18 miles of pavement of all widths per day at a cost of \$1.72 per mile. The total cost was \$4650 for 150 days of actual operation. The teams formerly used accomplished this work for \$16,800—a direct saving of \$12,150. And the streets were washed cleaner than ever before. This means that 2700 miles were flushed cleaner than ever before by two trucks as compared with twenty horses at an actual saving of \$12,150."

CITY MARSHAL HAS NEW POLICE BUZZ WAGON

City Marshal Jernigan this week stepped out with a brand new police buzz wagon, added to the department in the interest of greater efficiency. The police "boat" is a Dodge touring car and was ordered some time ago but has just been delivered.

The car will be on tap at the police station for service day and night and Jernigan will not have the experience he had a few nights ago when he was called on a hurry job when Frank Johnson was bound and gagged by a burglar. It took Jernigan a half hour to get the machine then in service started, and had it not been that he had sent Motor Officer Stewart post-haste to the scene of the burglary the minute the office was notified it would have been a half hour after detection of the crime before an officer would have been on the job.

300,000 Maxwell Owners

Will O.K. This Car

FOR this Post-War Maxwell contains all those fine traits of its 300,000 predecessors.

And in addition the great developments in engine, axle and chassis which the war brought.

But these 300,000 will vouch for its ability, for they have seen their own cars pile up endless mileage, outrun a guarantee on a tire, shy at the repair shop, and go where most other cars wouldn't follow.

They know, too, how thrifty it will prove on gas, how it will please both Son and Grandma in performance and comfort.

To say that they will O. K. this car is wasting words, for it is of the very same chassis model as the 300,000 others.

It's worth an hour of any man's time to look over the Post-War features, note what fine engineering has accomplished, and observe what big improvements have been made in appearance.

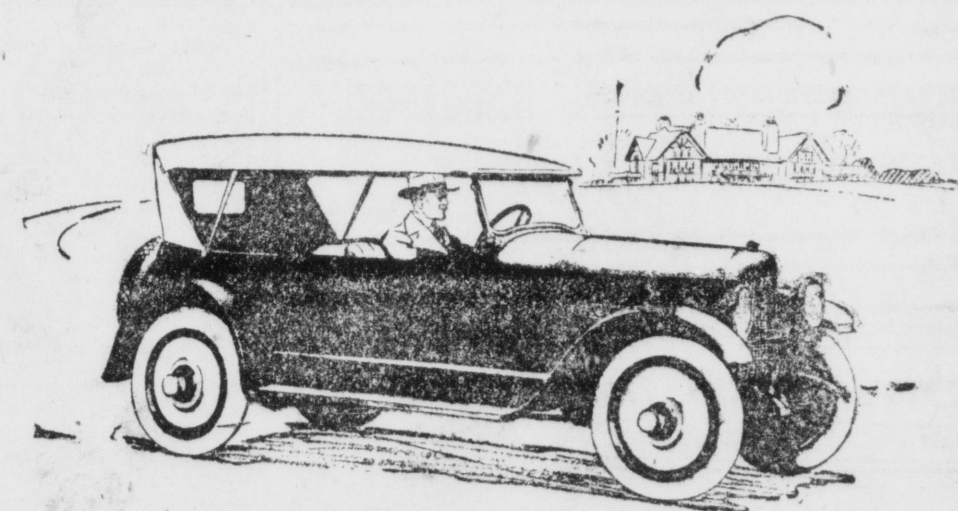

The price, however, is still \$1195 at Los Angeles. The extra values are yours.

First Methodist Episcopal Church—"The church of the cordial welcome." John Oliver, pastor. In the morning the pastor commences a series of three sermons on "The New Race and

the New Earth Which Christ Seeks to Make." Patriotic services in the evening. The pastor will review the Armistice Year, the Temperance Situation and the Christian Hope in World Affairs.

Richland Avenue Methodist Church—Regular services: Sunday school at 9:45. George Barrows, Supt. Preaching service at 11 o'clock. Burton Y. Neal will preach. The pastor of the First Methodist Church will speak at the mid-week service, Wednesday evening and Mrs. F. W. Rollins will sing.

St. Peter's Lutheran Church—Corner Van Ness Ave. and Sixth street. C. E. Linder, pastor. Sunday school at 10 a. m., and English service at 11 a. m. and 3 p. m. The morning service will be in the form of a missionary program, to be rendered by the children of the Sunday school. At 3 p. m., there will be another missionary service, at which time the Rev. J. H. Peters of Anaheim, will be the speaker.

The Ladies' Aid will meet next Wednesday afternoon with Mrs. Carl Guzmann.

Zion's Evangelical Church—corner Main and Tenth streets. F. Cordes, pastor. Sunday school, 9:30; preaching, 10:45 (German); 7:15 (English). Y. P. A. and Junior, 6:15. Prayer meeting, Thursday evening. All welcome.

First Christian Church, corner of Broadway and Sixth Sts. F. T. Porter, minister.—Go to Church Day. Bible school assembly at 9:45; C. E. Phillips, superintendent. Worship and sermon at 10:45. Mrs. Porter will speak on the subject, "Paving Paths to Peace." A patriotic service. Missionary school at 6 p. m. Evening service at 7:00; subject, "The Call of the Cross." Rev. Porter will be with the church at Whitier in an evangelistic meeting for the week. The Home-Like Church.

First Baptist Church. F. G. Davies, minister.—Bible school, 9:40 a. m.; Geo. L. Ash, superintendent. Public worship, 11 a. m. and 7 p. m. Morning subject, "Our International Birthday." Evening subject, "The Righteous Versus the Ungodly." Christian Endeavor societies, 6 p. m.

Reformed Presbyterian Church. G. N. Greer, pastor.—Subjects: "A Vision of Latter-Day Glory," and "Christianity, a Home Religion." Sabbath school, 10 a. m. C. E., 6 p. m. Evening service, 7 o'clock.

Spurgeon Memorial M. E. South, corner N. Broadway and Church. Rev. A. T. O'Rear, pastor.—Services 11 a. m. and 7 p. m. Subject for the morning service, "A Mystery Revealed." The subject for the evening hour will be "Our Friend—The Enemy."

Free Methodist Church, 315 Fruit St. M. C. Roll, pastor.—Sunday school, 9:45 a. m. Preaching, 11 a. m. Y. P. M., 6:30 p. m.; leader, Mrs. Roll. Class meeting, 6:30 p. m.; leader, Mr. Greenwald. Preaching 7:30, Rev F.

TOMORROW'S SUNDAY SCHOOL LESSON

PRACTICAL NOTES PREPARED FOR THE REGISTER

By Cal. Ogburn

Lesson for Nov. 9.—Matt. 16:13-24.

Peter's Great Confession.

"Who do men say that the Son of man is?"—v. 13.
How much anxiety a person is justified in manifesting as to his reputation depends entirely on why he is anxious at all. If it is his great concern to have people believe him to be a thoroughbred, when he is only a scrub, or a "maverick," then the less of it the better. Vanity and uncomely are poor assets with which to establish a commendable and lasting reputation.

Jesus wanted to establish the fact in the minds and hearts of the people that he was what John the Baptist had declared him to be when he introduced him as "the Lamb of God, which taketh away the sin of the world." And this was to the end that the people and not he might be benefited. His motive was a purely unselfish one, as his ministry duly attested. The disciples, who mingled freely with the multitude, would know how far he had succeeded in convincing them that what John had said of him was true. Therefore, his question to them.

Just Ask a Boy
If any man is curious to know just what people are thinking and saying about him, let him ask a trusted friend, a bitter enemy or a boy—preferably, if he would know the bare truth, the last. It was not to gratify either his curiosity or his vanity—for, of these he had neither—that Jesus asked for information as to who he was reputed to be. The answer to his question was to him a disappointment, and just what any unselfish person must expect. People are not easily convinced that what is being done for their good is from a purely worthy motive.

A good reputation, like a good character, is the result of years of effort, but it is worth to one's self and to others all that it costs, because a reputation for doing what is best for others lasts long after death, and to the world's betterment. There is no better example of this than that of Abraham Lincoln, who needs no other memorial than his established reputation for advocating what was for the highest good of all.

"Who do ye say that I am?"—v. 15. Than this there is no question today so vital. And it is still direct and personal, as much so as when first uttered. What men correctly believe and practice concerning Jesus Christ, in answer to this question, has more to do with the solution of social, economical, moral and other problems than all knowledge and ability they possess besides. And this must be recognized before there can be an end of the present turmoil and strife. Not in any academic sense must this answer be made, however true and beautiful it may be.

When individuals, communities and nations, in no formal manner, but humbly and with full purpose to govern themselves according to the

teaching and authority of Jesus Christ, return the answer that Peter gave, they will order come out of the existing chaos. When men recognize, as, in time they will, the Golden Rule, as the law regulating every man's attitude towards all others, then, in such a way as to meet Christ's approval the answer to his question will be given.

No Ordinary Person
Jesus had succeeded in convincing the people that he was no ordinary person. While they did not agree as to who he was, all confessed that he was a man of unusual attainments. And while they paid him this compliment they remained, in character, the same as before. But not so the disciples who confessed Jesus to be the Christ. From being men of the common herd, they became splendid in character and mighty in their achievements.

Peter, who acknowledged for himself and the other disciples that Jesus was "the Christ, the Son of the living God," instead of remaining "just one of the fisher-folks," arose to the distinction of having given to him the keys to the kingdom of heaven. Explain it as one may—or not at all—it is truly wonderful what transformations have taken place in those who have sincerely made "Peter's Great Confession" their own and thereafter have lived accordingly. And this is the hope of the world today.

ASK ESTATE LETTERS
Mary M. Keallier, through a petition filed today, will seek letters of administration in the estate of John R. McCain, who died on February 10, 1917.

FICTION BOOKS ARE ADDED TO LIBRARY

Books by Well Known Writers
In the List of Recent
Acquisitions

Charles Van Loan's "Taking the Count," Peter B. Kyne's "The Green Pea Pirates," Wallace Irwin's "The Blooming Angel," and J. O. Curwood's "The River's End" are among new fiction books just added to the shelves of the Santa Ana Library.

The recent additions include twenty-one books for the juvenile department. The list of new books both for the adult department and the juvenile department follow:

New Fiction

Arnold, Winifred—Miss Emeline's Kith and Kin.

Bassett, S. W.—The Harbor Road.

Bell, J. J.—Just Jimima.

Blythe, S. G.—Hunkins.

Bottoms, Phyllis—Servant of Reality.

Buchan, John—Mr. Standfast.

Burnham, C. L.—In Apple Blossom Time.

Chapman, W. G.—Green Timber Trails.

Clouston, J. S.—Simon.

Curwood, J. O.—The River's End.

Dehan, Richard—A Sailor's Home.

Ford, Sewell—Shorty McCabe Gets the Hail.

Irwin, Wallace—The Blooming Angel.

Jacobs, W. W.—Deep Waters.

Knibbs, H. H.—The Ridin' Kid from Powder River.

Kyne, P. B.—The Green-Pea Pirates.

Maugham, W. S.—The Moon and Sixpence.

McKenna, Stephen—Sonia Married.

Norton, Roy—Drowned Gold.

Oppenheim, E. P.—The Box with Broken Seals.

Pelley, W. D.—The Greater Glory.

Roland, Romain—Jean-Christophe.

Van Loan, Chas.—Taking the Count.

Walpole, Hugh—Jeremy.

Wilson, H. L.—Ma Pettengill.

Witwer, H. C.—Alex the Great.

Wodehouse, P. G.—A Damsel in Distress.

Juvenile Books

ARREST QUEEN MARIE BUT LEARN MISTAKE

PARIS, Nov. 7.—Queen Marie of Rumania was among the suspects recently arrested on the Swiss border. It was learned from Geneva today that the queen was a prisoner for five hours, being confined to a waiting room in a border railway station. The customs official who had made the arrest finally discovered his mistake and released his royal prisoner with profound apologies.

DON'T USE WIRE IN CLEANING RADIATOR

Many truck drivers clean mud from the radiator by poking it out with a wire. This is wrong, because it takes too long and because some damage may be done to the structure of the radiator. Play a gentle stream of water through the radiator from the rear outward, so that the water will not get into the engine compartment and possibly cause trouble.

If nobody else seems to know what's the matter with your car

LAGUNA GALLERY WILL BE OPEN WEEK DAYS

Association Members Are to
Donate Afternoons
During Winter

LAGUNA BEACH, Nov. 8.—Mrs. Brown's custodianship of the art gallery expired the last day of October, but, instead of closing the gallery on week days during the winter, as heretofore, the association has asked the resident members to donate their time an afternoon a week to the gallery.

For November Miss Ann B. Mason will be in charge on Mondays; Miss Washburn, Tuesdays; Miss Helen Norton, Wednesdays; Miss Mary Norton, Thursdays; Mrs. E. E. Johrans, Fridays, and Miss A. V. Fullerton, Saturdays and Sundays. The week day hours are from 12 to 3, instead of 12 to 6, as in the summer, but Saturdays and Sundays the hours will remain the same, from 12 to 6, Saturday afternoons, and 8 to 10 in the evening, and from 12 to 6 Sundays.

E. E. Jahrans motored to Los Angeles on business Wednesday. Miss Pauline Jahrans, who is in Los Angeles attending normal, has been unable to study for several days owing to a severe eye-strain.

Dr. Day left Wednesday for an extended trip to the desert.

Conway Griffiths has gone from Victorville, where he did several pictures, to Blythe, at which place he expects to remain for some time.

C. H. Perkins, A. J. Perkins, Miss Mary Craig, of Santa Ana, Mr. and Mrs. John Adams of Orange, and Mr. and Mrs. Chas. Leggett of Newark, N. J., visited Laguna recently.

Mrs. M. P. Snyder and Jos. K. Moxey of Los Angeles are spending a few days at the hotel.

Miss Eva Nissen, formerly in charge of the Russian center in Pasadena, spent Sunday in Laguna.

Jud Lyon, Charles Romsberg and Walker Romsberg, of Raton, New Mexico, were in Laguna Thursday.

They are old friends of Conway Griffiths and came down purposely to see him, and were much disappointed to find him away from home.

Wm. N. Cahill and Miss Katherine Kavanaugh were married Saturday and are spending their honeymoon in the north, but will be at home in Laguna soon.

Mrs. A. E. Tanberg has returned to her home in Laguna after several days spent in Los Angeles.

Heien Balfour, W. E. Balfour, Miss Annie Kavanaugh, from Los Angeles, and Orrin A. White of Pasadena, were in Laguna Thursday.

The tides are extremely low this week and many people have come down hoping to get abalones. The sea has been unusually calm for several weeks, so that with the low tides the abalone hunters should be able to go out quite far among the rocks.

Miss Albertine Stone of Washington, D. C., is the house guest of Mrs. Robert Evans.

A large pile of driftwood, laboriously gathered by two ladies and stacked beside their cottage, has mysteriously disappeared. The loss was discovered Tuesday afternoon.

Maurice Isch and Tony Dercum are constructing a speed boat which is expected to out-distance everything that floats in, or near, Laguna waters.

WINTERSBURG AND SMELTZER NOTES

WINTERSBURG AND SMELTZER, Nov. 8.—Mr. and Mrs. B. A. Farrar and their house guests, J. A. Farrar and granddaughter, Hazel, of Nebraska, brother and niece of B. A. Farrar, who have been with them the past two weeks, spent a couple of days in Los Angeles with relatives the first of the week. They made the trip with Mr. and Mrs. Earl Farrar and family of Huntington Beach, returning up Monday and returning Tuesday night.

The party were entertained at the home of a nephew of the Messrs. Farrar, S. T. Fine and family, and a family gathering was held in the evening with fifteen in all present. Tuesday was spent with Mr. and Mrs. J. L. Farrar at their new home in Los Angeles, to which they have but recently moved from Pasadena. The B. A. Farrar and Earl Farrar families returned Tuesday evening, leaving their guests in Los Angeles for a more extended visit.

Mrs. J. T. Worthy is staying at the Boydon Hall home during the absence of Mr. Worthy, who is at present in Inyo county. He left Thursday of last week, making the trip by machine, and not expected to return until the first of next week. Worthy is with his son, Conrad Worthy, and wife, and is looking over that section of the country while there.

Mrs. and Mrs. B. A. Farrar, with their house guests, J. A. Farrar and granddaughter, Hazel, attended morning services at the Methodist church at Huntington Beach Sunday and were guests for the remainder of the day of Mr. and Mrs. Earl Farrar.

Mr. and Mrs. F. M. Pryor, daughter, Carmen, and son, Carl, were week-end guests at Orange at the home of their daughter, Mrs. Wetlin.

Mrs. John Kemp and daughter, Helen, and Mrs. Stockenberg of Long Beach, were guests Wednesday of Mrs. B. T. Gothard.

"Our Heritage" will be the subject taken on Sunday morning at the Wintersburg Methodist church by Rev. J. Scott Willmarth. League service will be held as usual, but the evening preaching service will be discontinued for the day, as the minister will preach at Westminster at that hour.

The regular monthly business meeting of the Sunrise Camp of Royal Neighbors was held Wednesday afternoon, with Mrs. A. Stefanzi, Wednesday of next week the local camp will go in a body to Orange, where the new candidates will be initiated by the Orange team. The members will leave here at 2 o'clock.

Raymond Beam, who is in the employ of A. H. Moore, will move onto the J. W. Culver ranch, which was recently purchased by Moore and of which Culver gives possession this week. The large barn which Moore is erecting on the ranch is nearing completion.

Horace Moore purchased Reuben Clemens' Ford car this week.

Mrs. Harry Woodington and Mrs. Bert Gothard are canvassing the Wintersburg-Smeltzer district in the interest of the Red Cross membership drive. They have divided the district between them and are each working a separate section.

Mrs. J. W. Culver was accorded a pleasant surprise Tuesday afternoon by Mrs. A. Stefanzi who was assisted in entertaining by her daughter, Mrs. Opal Thornton, and by Mrs. Henry Winters, the affair being in view of his departure this week to Talbert, where the family is at present moving. Decorations throughout the rooms were of red crosses combined with flowers, making a most attractive effect.

A delightful social afternoon followed and during the time a tempting collation of sandwiches, salads, coffee and cakes was served, the latter being adorned with red crosses. The friends taking part in the farewell occasion were, besides the honoree, Mrs. J. W. Culver, the hostess, Mrs. A. Stefanzi, and her assistants, Mrs. Henry Winters and Mrs. Opal Thornton; Mrs. B. T. Gothard, Mrs. Wilfred Lewis, Mrs. Harry Woodington, Mrs. W. G. Altord, Mrs. John McMillan, Mrs. C. H. Maddux, Mrs. S. A. Stockton, Mrs. A. H. Moore.

Mr. and Mrs. Horace Moore moved Wednesday from Wintersburg to the Chilton ranch.

Chas. Walton, trouble man for the Smeltzer Telephone Company, is busily employed installing fuses throughout the system. These appliances have been secured by the company as a protection for phone users when the lines become accidentally charged with electricity. When the current strikes the line the fuses burn out, making the danger of fire much less.

R. L. Draper began plowing out the beets in his last field Thursday and the crews are rushing to get them out.

A cabinet meeting of the officers of the Epworth League of the local Methodist church was held Wednesday evening at the home of the president, Miss Ina Clemens.

Miss Minnie Grana, relief operator for the Smeltzer Home Telephone Co., substituted Thursday morning at the local switch board in the absence of Mrs. Chas. Walton, who was spending the day in Long Beach.

The beet dumps at Wintersburg and the two sugar dumps closed during the past week, the only one now running being the one at Smeltzer.

This Means You

When you get up with a bad taste in your mouth, a dull, tired feeling, no relish for food and are constipated, you know that you need a dose of Chamberlain's Tablets. They not only cause an agreeable movement of the bowels, but cleanse and invigorate the stomach and improve the digestion.—Adv.

When the leather fan belt develops considerable slippage it is probably because the rough side of the leather is against the pulley surface. The smooth side of the leather has a much greater traction adherence.

Universal joints at best are hard to lubricate and even if covered with a leather boot are not proof against the ravages of dirt and mud. The more dirt you allow to accumulate around these parts the more dirt will get to the working surfaces.

30 inch Springbase

100 inch Wheelbase

OVERLAND 4 has been put through the most thorough and severe test possible.

250,000 miles of mountain trails, desert sand, heat, cold, mud and dust, demonstrated the quality of every part of the car long before we began manufacturing.

This remarkable test showed conclusively that Three-Point Cantilever Springs, exclusive with Overland, are the greatest improvement in riding comfort since the introduction of pneumatic tires.

They protect the car from road shocks and prolong the life of every part.

They enable the wheels to hold better to the road. They give

greater comfort under all road conditions.

They do away almost entirely with side sway and rebound which twist and rack the car.

Diagonal attachment of the Three-Point Springs at both ends of a 130-inch Spring-base gives the steadiness and smooth riding of the heavy car of long wheelbase.

Equipment is complete from Auto-Lite Starting and Lighting System to Marshall Divan Spring Upholstery.

Come in and see this car. Ask for Booklet. Overland 4 Touring, \$845; Roadster, \$845; Coupe, \$1325; Sedan, \$1375; Prices f.o.b. Toledo.

Los Angeles Film Star Comes Here to Buy Globe Tires

Single Cure, Wrapped Tread Construction Interest Buyers

Lasky Company Actress Is Much Pleased With Many Features of Goods

Wanda Hawley, movie star, came from Los Angeles to Santa Ana to buy Globe tires from Edgar & Hays. The popular Lasky star was here this week and negotiated for the purchase of a complete set of 32x4 Globes, including an extra, taking the over-size type. She is an auto enthusiast and has heard of the way Edgar & Hays do business. She frequently has found it advantageous to make purchases in Santa Ana.

"Miss Hawley told me that she has been driving her own cars for several years, and during that time has tried many makes of tires," said N. H. Edgar of the firm today. "She was very much interested in the single cure wrapped tread construction of the Globe tires and had heard of them through friends who had used them in New York. The over-size appearance and unique tread appealed to her and it was a matter of her wanting the tires rather than any sales effort on our part."

"We find that the Globes are giving such satisfaction that wherever they are known there is a big demand for them. We have just started to introduce them in Santa Ana, and the success we already have met with is far beyond our anticipation of the business when we decided to take the agency. The hand-made features of this tire are of the character that impress the auto purchasing public with the stability of the goods. We have sold many of them already from our own garage and have placed agencies throughout the country, where business is developing in a most satisfactory manner."

MAKE TOOL CASE OUT OF OLD TUBE

That old inner tube which has been kicking around the garage, and which has long since outlived its usefulness for tire purposes, can be made to serve very handsomely as a tool case in which to carry all the small repair equipment, such as wrenches of moderate length, spark plugs, screw drivers, pliers, files, etc. Cut a length of the old tube, sufficient to take the cut, and then, after splitting the rubber lengthwise, cut the slits along the center in which to slip the tools. The sides of the rubber will curl up over the tools and then the whole can be rolled into a neat bundle, which can be held securely in rolled form by using wide rubber bands made by cutting off sections of tube.

Miss Wanda Hawley and her Globe equipped car.

SEES LUBRICATION THROUGH A 'WINDOW'

An ingenious car owner who had trouble because of stoppage in the oil tube which runs from the transmission case of the Ford to the engine, inserted in the transmission case a small mica window about two inches in diameter. The window is secured by a steel ring 1-32 of an inch in thickness and this ring is held by round-head screws. A felt gasket is placed beneath the mica and the transmission cover and the upper side of the mica is varnished with shellac.

POLICE FORCE INCREASED
LONG BEACH, Cal. Nov. 8.—Long Beach is getting ready for the annual tourist rush. The council has been asked to add thirty men to the police force for the winter.

DIRT IN GEARS IS ONE CAUSE OF WEAR

Around the engine and other parts of the car there is supposedly tight joints in addition to actual opening. Take the front and cover, commonly called the timing gear case cover. Vibration may loosen a few of the holding nuts, allowing the cover to move away from the crankcase a small fraction of an inch. With an accumulation of dirt over the cover, some of the dirt is bound to get to the gear teeth. Dirt and lack of lubrication of front end gears are responsible for rapid wear and noisy operation.

TALBERT NOTES

TALBERT, Nov. 8.—Mr. and Mrs. Henry Hanley and family left the past week for their former home at Poplar Bluffs, Mo. This is their third trip back.

Mr. and Mrs. Albert Bright, the latter of whom was Elva Hanley until her marriage two weeks ago to Mr. Bright, who is of Poplar Bluffs, Mo., are remaining on the Finley ranch, vacated by Mr. Hanley.

Gus Bryant, who has been farming with Mr. Hanley, left Thursday of this week with his family, also returning to Poplar Bluffs.

J. R. Rawdall of Santa Ana came out to the E. D. Plavon ranch Monday, remaining for a couple of days.

Mrs. Joseph J. Courages left Thursday for Los Angeles to remain over the week-end with relatives.

Mrs. Jess Davis was quite ill Wednesday night and a physician was called.

Mrs. Robert Gisler had the misfortune to step on a rusty spike Saturday of last week and as a result has been suffering considerable lameness since. The spike was in a board onto which Mrs. Gisler stepped, causing it to turn when the spike struck her ankle, inflicting a wound, and, in trying to regain her balance she stepped squarely onto it. It penetrated to the depth of about a half inch, going through the sole of her shoe.

Wednesday evening, following his mother's accident, Tom Gisler had his foot punctured. He was unloading the last load of bean straw late in the evening and in the uncertain light jumped down onto the hay fork, a prong of which penetrated his shoe and went into the foot to some depth. He had considerable trouble to extricate himself. He also is under the doctor's care.

Mr. and Mrs. Emil Gisler, newlyweds from Oxnard, were guests from Saturday until Monday at the Robt. Gisler home.

S. E. Talbert installed two large disfigure lights in his home Thursday of this week.

Mr. Masonhammer and family are preparing to move to the Snow ranch, where Masonhammer will be employed by Mr. Keller.

Mrs. M. A. Nimocks is preparing to give up her business life to a certain extent and has rented her entire ranch and on Monday of next week will hold a sale at the ranch to dispose of her farm implements and the greater part of her household furniture. Mrs. Nimocks has reserved the front part of her house for her own use and expects to remain here a part of the time.

The north portion of her ranch has been rented to a Mr. Smith of Anaheim, who with his wife will have possession of a part of Mrs. Nimocks' home and the remainder will be occupied by Mr. Smith's brother and wife and children, who are recent arrivals in this section. The south 120 acres of the ranch has been rented to J. W. Culver, who with his family moved here from Wintersburg this week into the cottage on this portion of the ranch.

Mrs. Jones, who was operated upon at the Santa Ana hospital some days ago, was doing nicely at the last account but was not yet able to be brought home.

R. L. Callens is having a ten-inch well put down on his ranch. Frank Page is doing the work and moved his well tools in the middle of the week ready for business.

S. E. Talbert commenced his fall plowing this week on a sixty-acre field. The work is being done by caterpillar. The Borchard beet dump, the last to remain open on the Huntington Beach-Santa Ana line, closed down the latter part of the past week with the closing of the beet season in this vicinity.

PREVENT CHAINS ON TIRES FROM RUST

Tire chains are always used in wet weather and care is necessary to keep them from getting rusty. The chains should always be dried off before they are returned to the tool box after use. Especially should the chains be looked after. A little cup grease or vaseline will prevent rusting and eliminate the trouble of prying them open or using a hammer to close them. There should always be carried in the tool kit a crossplate tool and one or two extra cross chains. With this tool broken cross chains may be removed or replaced very easily.

Yuba Tractors make you money.

ESSEX
MOTOR
CARS

The Way to

Consider it as 16,000 Users Rate it—by Performance and Endurance—Not by its Size and Weight

Judge the Essex

The Essex has filled a new position among motor cars, and nearly everyone knows it.

At first, before they had seen it outperform most every car, they merely regarded it as a fine, unusually well-built and finished, light weight automobile.

They appreciated its quality construction.

They conceded it a better built car. Still, because it has many details in common with other similar weight cars, they could not, at the time, bring themselves to look at it in the light it is now held by some 16,000 users.

Put Aside Its Size and Type Consider Only Performance

That is what all Essex owners will tell you to do. Go see it with the same expectation of its value that you would examine any fine quality car.

If speed is your requirement see if the Essex does not meet it.

Where luxury and finish are demanded compare the Essex with any car.

Don't put yourself in the erroneous position of classing it with light cars.

Expect of the Essex the same riding qualities—the same performance ability—with a range of speeds equal to any of such cars as you consider worth \$300 to \$500 more.

And then when you have tested the Essex in that manner, consider the advantages it possesses over those other larger cars with which you have classed it.

Costs Less to Operate Easier to Handle

You sacrifice none of the pleasures of motoring because the Essex is no larger than cars known as of the light weight type.

'But you gain all their advantages. When riding in the Essex you have no conscious feeling that it weighs any less or that it is performing any less satisfactorily than the big costly cars.

You sit in as comfortable and upon as richly upholstered cushions.

You hold no concern as to the endurance of your car.

If you drive you feel the ease of its operation. 'You learn that the Essex requires little attention and that it grows in your esteem because it so completely meets your motoring needs.

You will place a large car price on the Essex if you judge it by performance and durability.

That is why everyone is so enthusiastic for it.

BRISCOE

28.8 Miles on a Gallon of Gas

—one gallon

You can drive from Los Angeles to the beach and back home again on one gallon of gas if you drive a Briscoe—and still have enough fuel to run around a few blocks.

28.8 miles on a gallon of gasoline is the record of the Briscoe, made under A. A. A. supervision, covering 378 miles of all kinds of roads and climbing mountain grades on the last Yosemite Economy Run.

Many owners report even as great as 35 miles to a gallon. And this economy extends beyond fuel consumption. It includes almost unbelievable mileage on tires and, as for oil, it amounts to nothing as an expense.

This, combined with low first cost and slow depreciation, makes the Briscoe the motor car for you.

Immediate deliveries can be made in both five-passenger touring cars and two-passenger roadsters.
\$1175, delivered tax paid
